

CONDON GLOBE.

VOL. XV.

CONDON, OREGON, THURSDAY, AUGUST 17, 1905.

NO. 22.

Recent Deaths.

Howard, the four-year-old son of Mr. and Mrs. S. A. Thompson, of Matney precinct, died last Thursday of diphtheria. This makes the second death in the Thompson family from this disease within a week. Mrs. Thompson, who also suffered from the disease, is improving. The child was buried Friday afternoon. Much sympathy is expressed for the stricken parents in their double sorrow.

McGILVRAY.

Miss Edna McGilvray, daughter of Mr. and Mrs. Sam McGilvray, of Mayville precinct, died very suddenly at the home of her parents last Saturday evening after an illness of only an hour. She was attacked with violent cramps in the stomach and died in a convulsion before medical help could arrive from this city. Dr. Wood was summoned but the patient was dead when he reached the house. Ptomaine poisoning was believed to have been the cause of death.

Deceased was 19 years old and was a general favorite with a large circle of friends and her untimely death has cast a gloom over the entire community where she was so well and favorably known. The funeral was held at the I. O. O. F. cemetery at Mayville Monday forenoon and was of the largest ever seen at that place. Rev. Riggs, of this city, conducted the services at the church and the Mayville Grange, of which deceased was a member, took charge of the services at the grave.

Many expressions of sympathy for the sorrowing parents and sisters are heard in this new sorrow, they having lost another daughter about a year ago.

WILLIAMS.

John Williams, a well known resident of the Lost Valley section, died at the home of Mr. and Mrs. Harry Greenfield in this city last Saturday, of typhoid fever. He was attacked by the disease about two weeks ago and was brought to town to the home of his wife's mother to be near medical help. A trained nurse was secured from Portland to care for the sick man and all that was possible was done to check the disease but without avail. His mother, his wife and five small children are left to mourn the loss of the husband and father and son. His mother, Mrs. Lafferty, was unable to come to her son or even to attend the funeral although only a few miles from him, being at the home of S. A. Thompson, east of town, which is now closely quarantined on account of diphtheria.

The funeral was held from the Greenfield residence Sunday afternoon the services at the grave being conducted by the Knights of Pythias, of which order deceased was a member. Rev. Riggs, of the Congregational church, conducted a short service at the house. Much sympathy is expressed for the mother and little ones who are thus deprived of their natural protector and provider.

Assault and Battery.

Justice Neale's court was in session Monday and Tuesday disposing of a couple of assault and battery cases. In the first case Ned Hawlin was charged with assault and battery, the complaining witness being J. A. Richmond, of this city. Hawlin lives with his father on Richmond's ranch in Ferry Canyon precinct and while at the ranch last Thursday Mr. Richmond and young Hawlin became involved in a dispute of some kind when the assault was committed. Hawlin entered a plea of not guilty and demanded a jury trial. The following jury was selected to try out the case: W. A. Goodwin, O. W. Propst, S. D. Fletcher, J. H. Knox, Wm. Liv-

ington and H. Prank. After hearing the evidence the jury returned a verdict of guilty of simple assault, and the justice assessed the defendant \$40.

In the second case the defendant was Jas. Quinn, better known around town as "Riley." He was charged with having assaulted Sawyer, the plumber, Monday night with a club and after knocking him down with it having kicked him for falling. Sawyer needed the attention of a surgeon after the engagement and several stitches were required to close his wounds. When brought into court Quinn entered a plea of guilty and was fined \$10 which he paid.

Train Wrecked.

The engine and tender which pulls the regular engine on the Condon line went into the ditch Sunday morning at a point about one mile north of Gwyn-dolen station. The train was going to Rock creek to bring out a train of loaded freight cars which had been left at that place during the week and the trip down was being made backwards. A kink in the track derailed the tender and the engine followed into the ditch. A young boy named Gray, who has been employed at the depot as a water carrier, was sitting on the tender when the accident occurred and was thrown against the water tank with considerable force, receiving some ugly cuts and bruises on the head and face. His injuries are not dangerous, however. None of the train crew was injured. A wrecking crew came out from The Dalles Monday morning to clear away the wreck and traffic was resumed that evening.

Two new residences are under way in Mann's addition.

Mrs. Lucy Robinson, of Lone Rock, went to Portland Tuesday to take in the Fair and visit relatives. She expects to be absent about three months.

Mrs. Herbert Halstead and family expect to leave in a few days for Portland and other points in the valley for an indefinite visit. Mr. Halstead will follow them in a couple of weeks and spend his vacation with them taking in the sights at the big Fair.

S. A. Springston, of Howard, Kansas, arrived Monday evening to visit his son F. M. Springston and family, of Lost Valley. Mr. Springston visited Condon about 14 years ago and was much surprised to see the wonderful changes in the town and surrounding country since that time. F. M. Springston met his father here and they left for the ranch Tuesday morning.

Herbert Halstead, manager of the Condon Lumber Co., was in town for a few days during the week looking after business matters for his company. He reports business good at the mill and a large amount of high class lumber being turned out. The company expects to begin work on their lumber flume next week and when this improvement is completed they will be able to lay their lumber down within six miles of Condon at a trifling expense for carriage.

Mrs. S. A. Thompson has about recovered from the diphtheria and no further cases of the disease have developed. Mr. Thompson has had another house on his ranch repaired and will move his family there in a day or two and the house where the disease occurred will be destroyed with all the contents, in order to thoroughly exterminate every germ of the disease. The report which gained some circulation to the effect that the disease had broken out in the family of Abe Luelling was entirely without foundation it having been confined to the three cases in the Thompson family.

In Love With Coos County.

Marshfield, Or., Aug. 6, 1905.

Editor Globe:—

I have been waiting till I got back from our camping trip to write to you. We were in camp 15 days at Big Creek and Sunset Bay at Coos Head Light House. The light keeper took us up into the tower 76 feet above the sea, where we could look over the old Pacific as far as the eye could reach. We saw three large whales at the mouth of the bay, they were close in and we could see them plain when they came up to blow, one of them bellowed like a cow. The light keeper said they were in so near to feed on herring and an old fisherman said one of them came up close to his boat as he was coming in from his fishing trip. He said the herring were running out of his mouth by the bushel. He said he got his boat away from him in a hurry as he might come up under it and capsize it. We had a fine time bathing in the sea, fishing and hunting. We had venison but got no bear. My wife while out walking one day saw a bear coming down a leaning tree. After our hunters came in they with some of our camp neighbors went out after Mr. Bear, saw where he had been but did not get sight of him. The woods here on the coast are full of deer and bear. Yes, there are lots of blue grouse and quail, not the bob-white quail but a large blue kind with topknots. Yes, lots of huckleberries of two kinds, blue and bright red, and the finest strawberries I ever saw. Lots of blackberries, thimbleberries, raspberries, red and black, lots of loganberries and in fact berries of all kinds. Marshfield has a railroad of 30 miles to Myrtle Point which carries coal from the coal mines to this place where it is shipped to San Francisco on the large ocean steamships which come into this port and they are loaded down with all the passengers they dare carry. There is a fleet of sailing ships as well as steam schooners loading lumber from this port to California ports and trade in coal and lumber is lively. This place is looking up lively now as the new railroad from Drain on the Southern Pacific is coming here and property is changing hands fast. Three sales were made yesterday just in front of my place on the water front. I have bought a nice little cottage and two lots on 2nd street from the water front, at high tide the water comes up nearly to our house. I was asked yesterday if I wanted to sell, of course I did not as I could not see where I could better myself. There is one thing sure, I am in love with Coos Bay. I have not had the asthma since I have been here, that glorious ocean breeze and I agree the very best. It is new life to me. We will come home to Condon the latter part of September as it will be necessary for me to come but I would like to stay here through the Winter. This is the first news I have written home since I have been here so you are the first to hear from me. Hoping this will find you and yours well and enjoying yourselves, I am,

Respectfully yours,

E. A. May.

Governor Chamberlain came down to Coos Bay on the steam ship Alliance to Marshfield, was met by the citizens here and taken down to Charlestown Bay where they had a clam bake and other refreshments and had a jolly time generally. It is reported that the Gov. had a foot race with a preacher for a bottle of beer and the Governor won out in good shape. He is very much taken with Coos Bay as this was his first visit. When they came back to Marshfield on the steamer Columbia the Gov. was tendered a banquet at the Blanco hotel at this place. He will talk to the people in the M. E. Church here tonight for a short time.

E. A. M.

They Appeal To Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by Condon Drug Co.

The fine black Percheron stallion which is quartered in the Dysart barn has been very sick this week with distemper and lung fever. The horse cost the present owners \$3000.00.
