The defeat of Jonathan Bourne means the defeat of the principle that U. S. Senators should be elected by the popular vote of the people, that Jack Matthews will select the next U. S. For a good wholesome meal go to the Belvedere Restaurant.

BOURNE A WINNER

In Spite of Corporations and Scheming Politicians his Election now Seems Certain.

That Jonathan Bourne will be our next U. S. Senator seems to be the opinion as expressed by the majority of our exchanges. The slanderous attack that was made against the character of Mr. Bourne by the writers of anonymous letters, preceding the primary election, have been branded as malicious lies by Mr. Bourne and at his request the Portland Municipal League, which has for its sole purpose the betterment of the moral and social condition of the metropolis, made a thorough investigation of the charges that have been made against Mr. Bourne. They have examined witnesses under oath and among these witnesses will be found some of Oregon's most prominent and highly respected citizens. Both the friends and enemies of Mr. Bourne who had been at his head-

quarters in Salem were subjected to a rigid examination. The committee was unable to find one man who would state that Mr. Bourne's headquarters had the remotest appearance of being anything but an orderly and highly respectable place. These slanderous attacks upon Mr. Bourne's character by men who were afraid to sign their names to the literature in question will make many votes for him at the June election. The corporations and unscrupulous politicians knew that they would be unable to defeat him in a fair and square fight. They knew that the common people were with him and therefore they found it necessary to resort to slander in the hope that the unsuspecting public would believe it. The anonymous letters that were sent out before the primaries had their effect. They lost many votes for Mr. Bourne but Oregon voters now have the facts and these malicious campaign lies that have been peddled by self-seeking politicians will on the first Monday in June make many more

votes for Bourne than he lost at the primaries. In Gilliam county there are many democrats will vote for the republican nominee partly as a rebuke to his political enemies and to the deplorable methods which they have used and are now using to accomplish his defeat and partly because they know him to be a staunch friend of the primary law and of the common people. Mr. Bourne has the endorsement of the Portland Labor Press and the unqualified support of every laboring man irrespective of party lines. The voters in the agricultural and stock counties are especially friendly to Mr. Bourne and he can safely expect a goodly number of democrats who reside in the inland counties to make a cross after No. 15 on the ballot. Nearly every republican, with the exception of a few disgruntled politicians who are republicans for revenue or political emoluments only, will cast their ballot for Bourne. If you are a voter and believe that the U. S. Senators should be elected by the direct vote of the people, that the trusts and politicians should not select our state and federal officers, that an able, fearless and independent man should represent the people of Oregon in the U. S. Senate, don't overlook No. 15 on the ballot next Monday.

Hunt still howls and the more he howls the more hardware he sells. Come in and hear him.

I will make your abstracts promptly and accurately and at a lower price than you can get it done at any other place in the county. Best of experience. M. D. CARTER, Condon, Oregon.
