

# OREGON STATE ITEMS OF INTEREST

## DISTILLERY TO BE BUILT.

### North Bend Will Probably Secure Denatured Alcohol Plant.

North Bend—The Coos bay country has secured the establishment of a plant for the manufacture of denatured alcohol and the distillery will be ready to receive potatoes from the farmers next fall.

S. T. Clover, of the American Alcohol company, New York, came to the Coos bay country about two weeks ago in an endeavor to interest the farmers in denatured alcohol. He was accompanied by Dr. Withycombe, who conducted several farmers' institutes in the county and at these meetings the system of conducting denatured plants was explained to the farmers. It was explained that if 75,000 tons of potatoes were promised the company it would at once prepare to begin operations. The distillery could easily handle twice the quantity named, but was willing to start on a small scale.

Contracts were entered into with a number of farmers on a basis of \$8 per ton for three years, the distillery to take potatoes of all sizes. It is estimated that at this price farmers will receive nearly \$100 per acre for their product.

It was explained by the promoters of the enterprise that when the distillery was running at its full capacity it would require 87 tons of coal per day for 10 months in the year to convert the tubers into alcohol, and this would prove a great stimulus to coal mining. Furthermore, a number of by-products would be manufactured that would greatly increase the payroll.

Although the site for the distillery has not been definitely announced it will probably go to North Bend.

## Mines Fabulously Rich.

Lakeview—W. I. Fleck, member of the firm of Fleck & Snowgoose, mining experts and assayers of Bidwell, was in Lakeview recently on his way home from the Windy Hollow mines, in Warner valley, known now as the Lost Cabin mining district. Mr. Fleck is enthusiastic over the prospects of the new mining camp, and believes firmly that it will develop rich diggings. He stated that he took samples of the rock indiscriminately around one of the porphyry dikes on one of the claims, and also the dirt for several feet from the dike, and found it to assay \$50 to the ton on an average. These tests were made from rock and dirt from the top of the ground.

## Reserve in Southern Oregon.

Salem—A proclamation creating the Siskiyou forest reserve, comprising about one-half of Josephine county and two or three townships of Douglas county, has been received by Governor Chamberlain from President Roosevelt. This is the reserve concerning which a strong protest was made a year or two ago by residents of Curry county. As originally planned, the reserve included about three-fifths of Curry county, but the protests were so strong and persistent that the lines of the temporary withdrawal were changed and in finally creating the reserve no Curry county lands are included. The reserve covers over 700,000 acres.

## Modern Road in Coquille Valley.

Myrtle Point—The rock crusher, which has been operated at the quarry on the road between Myrtle Point and Coquille, is about to suspend work, owing to wet weather. The result of the work which has been done thus far is the graveling of the entire road between Coquille and Myrtle Point. This road is laid on a good grade, and the covering of crushed rock makes it as good a road as any Oregon can boast of. It is an excellent quality of rock for this purpose, which is quarried where the crusher is located.

## Timber Land Sold.

Eugene—Approximately 10,000 acres of the finest timber land in the state changed hands a few days ago when a large number of Eugene people and a few others residing elsewhere, sold their holdings on Quartz creek, in the McKenzie country, 50 miles east of Eugene. The sale was made to two Portland capitalists, whose names are not made public, for about \$25 an acre, although the exact purchase price was not given out. The land is in township 17 south, range 4 east, and has been pooled for sale since 1901, at which time the price was set at \$10 an acre.

## Grow and Sell Vetch.

Albany—A company of farmers, formed for the purpose of growing and selling vetch, has been incorporated by articles filed in the county clerk's office here. The Tangent Vetch Growers' union is the name of the combination. Linn county farmers have been very successful in the growing of vetch and have found it a paying industry. The new company intends to go into the business on a large scale and will raise vetch both for grain and hay.

## PAY TAXES DIRECT.

### Oregon Tax Commission Recommends Relief for Sheriffs.

Salem—That the duty of collecting taxes should be taken from the sheriffs and imposed upon the county treasurers, is one of the recommendations contained in the report of the Oregon Tax commission just issued from the printing office. This recommendation is in itself of considerable importance in the management of county affairs, but it assumes particular interest to sheriffs and treasurers when coupled with the suggestion that this change will make necessary a reduction of the salaries of sheriffs and a raise of the salaries of treasurers. The commission concludes the subject by remarking that the legislature, if it makes the change, should not overlook the salary matter.

That the handling of public funds is more particularly the work of a treasurer and not of a sheriff, is the principal reason for the proposed change. The commission is of the opinion that the accounts could be just as accurately checked if the money were paid directly to county treasurers as it could be if it were first paid to the sheriffs and by them turned over to the treasurers. There would be one less opportunity for mismanagement. The commission does not base its recommendation so much upon its own reasoning, however, as it does upon the reasoning of a sheriff, who is quoted, but whose name is not given.

## Buying Great Tracts of Timber.

Eugene—The Monroe Lumber & Milling company, of Monroe, Wash., is having recorded deeds to 5,000 acres of timber land in Lane and Benton counties, and it is reported that the company intends to construct a railroad from Eugene, Corvallis or Junction City, to the timber. If another 5,000 acres of timber land can be secured at a reasonable figure, if more land cannot be secured, the company will hold what they now have as a speculation. The land involved is in the northwestern part of Lane county.

## Harness Olive Lake.

Sumpter—The Fremont Power company, which has been for some time past engaged in harnessing the waters of Olive lake for power purposes, is pushing operations toward the completion of its plant by employing almost every idle man in the district. Men have been imported from almost every section of Eastern Oregon by this company to work on the ditch and pipe line as well as installing its huge power machinery. This company is identified with the Red Boy mine also, which property will be operated in the future by electric power, instead of steam, as heretofore.

## PORTLAND MARKETS.

Wheat—Club, 64c; bluestem, 68c; valley, 67c; red, 61c.  
Oats—No. 1 white, \$24@24.50; gray, \$23@23.50.

Pork—Dressed, 6@8c per pound. Hops—1906, choice, 15@21c; prime, 13@14c; medium, 12@12½c per pound; olds, nominal.

Wool—Eastern Oregon average best, 13@18c per pound, according to shrinkage; valley, 20@21c, according to shrinkage; mohair, 26@28c.

## GREAT GOLD IN WYOMING.

### Snow Falls, in Some Sections Accompanied by High Winds

Cheyenne, Wyo., Oct. 23.—The worst storm known in years for the season now prevails over Wyoming. It is accompanied by heavy snowfall, and in some sections very high winds. The Union Pacific has snow plows out on the entire line between here and Ogden. West of Green River, Wyoming, the line is blockaded, and all communication shut off. All wires are down.

A dispatch from Green River says the highest wind known in 25 years is now blowing, with the temperature 10 degrees above zero, and snow falling. One flagman near Granger was found dead and another man was found on the track unconscious and badly frozen.

One building at Green River was demolished by the wind. The news from Northern and Central Wyoming reports practically the same conditions. Stockmen are apprehensive of great losses, as the storm came upon them unprepared. The storm is slightly abating here.

## CHULO VOLCANO BELCHES.

### Volume of Sulphur Water Swamps a Salvador Town.

San Salvador, Oct. 23.—Telegraphic communication with interior points has been restored, and news of the disaster wrought by the terrific storm which has swept over the country is being received. Over 100 persons were drowned in Coatepeque. A vast quantity of sulphur water was thrown out of the Chulo volcano, and inundated the town of Panchinaloo, killing most of the inhabitants.

From other points also reports of terrific devastation are coming in. Piminto and other towns are reported to have been swept away by the floods.

The schooner Azelene, with a number of passengers on board, has been lost between Corinto, Nicaragua and Amapala, Honduras. Everybody on board was drowned.

The floods have disinterred a number of corpses from cemeteries and are carrying them down the streams. It is reported that the railroads in Honduras have suffered serious damage.

## PACKERS MAKING MONEY.

### Talk of Sale to English Syndicate is Not Credited.

Washington, Oct. 23.—The Agricultural department officials are very much interested in the report from Chicago that the big packing houses are contemplating a gigantic company, to be financed by English capital. They do not look for the carrying out of any such project. For years the packing companies have been straining every nerve to create the impression that they are acting independently of each other.

Officials here declare that notwithstanding the rigorous beef inspection measures now being enforced, the packing houses are being operated with a big profit. They cannot see wherein there would be any serious disadvantage for the packers as the outcome of such a deal, for foreign corporations would be absolutely at the mercy of the respective states.

## BUOY MESSAGES FOUND.

### Set Adrift by Baldwin-Zeigler Polar Expedition in 1901.

Buffalo, N. Y., Oct. 23.—Two buoy messages, set adrift from Franz Josef land by the Baldwin-Zeigler polar expedition in 1901, have been found and forwarded to Evelyn B. Baldwin, the founder of the expedition, who is living in this city. The messages were picked up on July 10, 1906, on Moffet island, by Captain Strenerson, of the Arctic whaler Gottfried, and forwarded to the United States State department. They were mailed to Mr. Baldwin from Washington and delivered to him today.

The messages are typewritten on film paper, and show the effects of their journey in the Arctic sea. The messages were an appeal for coal, the lack of which forced the expedition to turn back.

## Insane Kept in Filth.

Havana, Oct. 23.—Governor Magoon visited the national asylum this afternoon and discovered a deplorable state of affairs there. One thousand six hundred and sixty persons of both sexes are crowded into filthy and dilapidated buildings with a capacity for 400 persons only. They are sleeping on broken cots, relics of the last American occupation. Congress made an appropriation to enlarge the asylum, but the money was never expended. The conditions today are very little better than under Spanish control.

## Clemenceau is Summoned.

Paris, Oct. 23.—As was expected, M. Clemenceau, minister of the interior, was summoned to the palace today and entrusted with the task of forming a new ministry. It will take him four days to choose his ministers and another four or five days for the new ministry to agree on a program.

## ALBERT DAMS Livery and Feed Stable

Our Livery Stock is First-Class. Best attention to boarding Stock. Your Patronage is Solicited.

SPRING STREET

Condon Oregon

## The Hotel Grande

R. F. MUNROE, Proprietor.
