The House of Representatives has repudiated the President's plan for adopting the simplified method of spelling.

Employees of the Portland Consolidated Street Railway Company have gone on a strike for a raise of one cent an hour in wages.

Eleven female exponents of woman suffrage, who insisted upon creating a disturbance in the British House of Commons, have been convicted of a breach of the peace and sentenced to jail.

The meanest man in Condon stepped into one of the local stores this week and purchased a wash tub, leaving directions to the proprietor to lay it away until Christmas day so that it would be a surprise for his wife.

Those members of Congress who are agitating an increase in salary of the senators and representatives because they cannot afford to serve their country at the present salary of \$5,000 per year, will doubtless find no trouble in securing some good men in their districts who would consent to take their places.

If our state senator fails to take action on the proposed amendment to the Code of Oregon providing that the question of the location of the county high school be submitted to the voters of the county, it will take him one step nearer to the beautiful little stream called Salt Creek, that great rendezvous of defeated candidates.

A bill will be introduced at the next legislative session providing for the creation of two new justices of the Supreme court. The present three members of the court seem wholly unable to dispose of the cases on the docket as is shown by the fact that Gilliam county now has in its bastille a murderer who has been lodged there for nearly two years awaiting the verdict of the higher court on his appeal. This star boarder should long ago have been comfortably housed in the penitentiary at Salem but is still boarding in the jail at the expense of the taxpayers of the county.
