Take Your Choice!

You must choose between the Plumber now or the Doctor later.

Millions of microbes have lain dormant in the drain pipes in your home all winter waiting to be hatched out by the first few days of real hot weather. Now here is the point—was that plumbing properly done?—if not right now is the time to see to it, for to put it off is tempting fate. It's cheaper and far more pleasant to pay a plumber's bill than a doctor's and undertaker's. Think it over, but not too long.
