This paper invites communications on current topics of general interest, but the editor disclaims any responsibility for statements made unopinionated expressed by correspondents.

COURT CONDON, NO. 4, E. OF A. MEETS Mondays evening of each month in Army Hall lodges room. Visiting brothers are requested to meet with us. A warm welcome awaits you.

J. E. VAUGHN, F. S. W. W. OVERLANDER, C. H.

The per capita distribution of wealth in this country is reported to be \$1,310. The fact that John D. Rockefeller has cornered the vast majority of the per caps somewhat detracts from the exceeding joy that this item might be expected to arouse.

Cartoonist Nast's famous ring of grafters pointing to each other would very well apply to the present situation in San Francisco.

Dr. Wiley says it is a disgrace to die of any thing but old age. The public, which is a little tired of Wiley, are not agreed as to whether it would be in his case.

The Courier Journal is singing a refrain "Teddy's pants will soon fit Willy", but will they?

A Memphis woman has sued the same man for divorce five times in seven years. After a while he will be getting tired of paying for that kind of amusement for her.

You have probably noticed that every tail-end base ball club wins games by splendid playing and loses on account of hard luck.

May Irwin says a woman is happiest with a young husband. This is undoubtedly true, if the young man has no deep-seated prejudice against splitting the kindling and lighting the kitchen fire in the morning.

Owing to a mistake of the legislature, Texas people will have to go without a drink for twenty days. That will give the Texans a chance to discover that it is not an impossibility after all.

Having invaded a Chicago packing house, Gen. Kuroki doubtless understands now that there are even worse things than war.

An intoxicant recently discovered in Africa compels people to tell the truth. If it is ever introduced into this country, it might be well for the average man to steer clear of it, if he is staying out late at night.

Prices are on a higher level than they have been for seventeen years, according to the bureau of labor. We are glad to know they are on the level even if it is higher.

If you ever get even with the fellow that does you wrong, you will have to drop to his level. Revenge is sweet, but if a fellow has to do that, revenge costs too much.

The person who peddles a scandal is as bad as the one who starts it.

Some folks have brains that operate just like a sifter in a flour mill—everything good goes on through and the trash stays behind.

The case of the Dampskibactreseskabet vs. Rotterdam was recently called in Holland. A case with a bad beginning and a bad ending.

A girl at Pittsburg got out of bed, took a slat from her bed, and smashed a mouse that was annoying her. You don't have to believe it unless you want to.

The President says that a soiled hand looks as good to him as any other. This may be construed by Harriman as invitation to make up.

President Roosevelt says the "best crop of all is a crop of children". That depends on whether they are your own or your neighbors' children.

Among other thing, California now comes forward with the meanest man in the country. A bridegroom of that State, is accused of forcing his bride to eat all the biscuits she bakes.

The next edition of "Wild Animals I Have Known" by Ernest Seaton Thompson, will doubtless include the President.

In Kansas, City a Mr. Singer married a Miss Nightingale but none of the newspapers referred to their home as a "cosy little nest".

According to the census figures, there are 4,833,630 breadwinners among the women of this country. If there were that many good bread makers among them, there would be a falling off in the demand for dyspepsia tablets.

Finland's first trouble with the nineteen women in her legislature will come when some mere man gets up and moves that debate on a question be closed.

Pat Crowe has been declared not guilty by another jury. We doubt if Pat could break into prison if he wanted to.

Now that Mr. Roosevelt has taken up the role of critic, perhaps it would be well for Mr. Cleveland to look over his revises when he writes anything on fishing.

If the dents in the brain are evidence of its use, then some men's brains must be as smooth as glass.

Chancellor Day of Syracuse University has broken forth in a fresh tirade against President Roosevelt. Wonder who is paying him for cutting these capers.
