In a certain locality in Oregon a gentleman by the name of Johnny Ghosh and a lady by the name of Jennie Dern were recently married. He prefers that to facing the blushing bride and furious husband.

The base ball team which will play the Condon Reds for the purse at the celebration will be known as "The Flower of Gilliam". This team will be composed of the best players that can be picked from three counties, Gilliam, Wheeler and Sherman and so will undoubtedly be one of the best teams that ever played on the Condon diamond. They will give the "Reds" a close game for the money but the way the boys are playing now, nothing outside of an all-professional team can take the purse away from them so don't fail to see these games as they will be "hummers".

Mr. Editor—I recommend The Passion Play to be one of the best ever given. County Surveyor J. A. McMorris finished a survey in Paper Sack last week for Chas. Underwood, Geo. Hardie and H. Greenfield. Some people may not know where Paper Sack is and why it was named thus. Paper Sack is in Tp. 5 South, R. 22 East which makes it about twelve miles southeast of Condon and the reason it was so named is this: In the early days a man was passing through that part of the country and he had his lunch in a paper sack. After eating his dinner he tied up the sack and hung it on a sage-brush. Another hungry wayfarer riding along the same trail discovered the sack and took pains to examine it, but found it empty and since that day this section of the country has been called Paper Sack. Mr. McMorris reports that he is hampered a great deal in his work by not being able to get Field Notes as formerly. He has to send the cash to the U. S. Depository and then send the receipt to the Surveyor General in order to get them and even then it may be a week or a month before he gets the Field Notes, whereas heretofore he had only to write for them to get them promptly.
