COURT CONDON, NO. 24, F. OF A. MEETS Mondays evening of each month in Armory Hall, lodge room. Visiting brothers are requested to meet with us. A warm welcome awaits you.

J. E. VAUGHN, F. & W. W. OVERLANDER, C. R.

In a recent editorial the Oregonian discusses the direct primary law with faint praise, its object being to create a sentiment in favor of certain changes in it which will be attempted at the next session of the Legislature. The principal point of attack will be Statement No. 1 which is very objectionable to party bosses as is the whole law for that matter. In 1901 when the bill was introduced into the Senate by a member from Multnomah, Jack Mathews exclaimed: "What in—are you doing! Don't you know that bill will put us fellows out of business if it becomes a law? Aren't you going to play the game with us?" Now it is just such fellows as Jack Mathews, Joe Simon Charley Carey, etc., that the law is aimed at and whenever it is changed by the Legislature it will be referred to the people and kept intact as it is. Statement No. 1 is in the interests of the people and against the interests of the political bosses and it will be kept where it is in spite of all attempts to "knife" it. Nevertheless it will be attacked and if any considerable strength is developed for the change it will be "improved" in such a manner that the whole matter of choosing candidates for office will be again under the manipulation of the political bosses of the state and another crop of statesmen like Mitchell, Mays, Williamson, Baker, Hermann, Carey, Mathews and their innumerable tribe of followers will be developed in our midst. We've had enough of that kind. The direct primary law is the handcuffs and shackles which keeps them where they belong—politically. It will be kept on the statute books!

The "Ox-eat-a-phone," spelled Auxetophone, is the latest and greatest invention in the talking machine line. It is an enlarged machine on a cabinet stand inside of which is a blower operated by electricity and when it is in operation the blower develops the sounds a hundred fold over the old patterns, and concerts and dances can be served with it as well as an orchestra. They cost only \$500 so we can all have one "after we have harvested our crop."
