A sidehill disc plow is being exhibited by Hunt the Hardware Man. It is so constructed that the frame goes back and forth without turning while at the end of the furrow the horses and tongue are swung around to the opposite direction, which also changes the position of the disc for the new furrow. It is guaranteed to do as good work, up hill or down, as any other plow made, and in fact will throw dirt up hill better than any flat bottom plow can.

WE SET YOUR TIRE WHILE YOU WAIT

The most useful invention of the age brought to a marvelous state of perfection.

With this machine we guarantee that we will not over-dish your wheels, and that we will not burn or beat up your wheels in getting the tires off and getting them back, and that the rims of the wheels will not be torn up in getting the bolts out and putting them back, for we do not have to take the tires off nor the bolts out. And we also guarantee that the tires will stay tight longer than when set in the old way. Now don't be deceived by the man who tells you the old way is as good as any. We hereby invite you to come and see for yourself.

MORE WHEELS ARE RUINED BY OVER-DISHING THAN ANYTHING ELSE. Only 20 to 30 minutes requires to set all four of your tires, therefore you can afford to wait for your work which we guarantee will be done in the most perfect manner.

Remember that we do all kinds repair work at reasonable prices

Take Your Choice!

You must choose between the Plumber now or the Doctor later.

Millions of microbes have lain dormant in the drain pipes in your home all winter waiting to be hatched out by the first few days of real hot weather. Now here is the point—was that plumbing properly done?—if not right now is the time to see to it, for to put it off is tempting fate. It's cheaper and far more pleasant to pay a plumber's bill than a doctor's and undertaker's. Think it over, but not too long.
