HOME BAKERY AND GROCERY

Everybody Knows

Watches to those who insist upon having them. We like to sell them for one reason, and yet we don't like to for another reason. The reason we like to sell them is because the margin of profit is much greater than on our higher grade watches, yet we would rather sell you a standard timepiece which we know would give entire satisfaction and make you our permanent customer. We sell more watches than any other dealer in the county for two reasons, the first is because we handle all the high grade movements, and never try to talk a customer into buying an inferior article, knowing that by so doing we not only lose his trade, but also his good will, and sacrifice our established reputation for square dealing and reliability. The second reason is expressed in a very few words, being nothing more or less than that our prices are about 25 per cent. lower than those of our competitors, regardless of their misleading assertions, and we are here to prove it to you. Our goods are marked in plain figures, and we have but one price to all. ROBINSON, Graduate Opti-
