

Factory Inspector Makes Visit.

E. D. Trumbull, deputy labor commissioner and factory inspector, called at this office last week. Mr. Trumbull is inspecting all places where machinery is used, as is required by the factory inspection law, and while here ordered a guard placed at the end of the engine shaft used in this office. He finished his inspection in Condon on Saturday and left on the stage that evening for towns south of here. Since August 15th of this year he has inspected 200 plants in Eastern Oregon.

New Certificates Look Good to Everyone.

The original issue of clearing house certificates has been retired and a new series put into circulation by the Portland Clearing House Association. The new currency, although being printed in the same denominations of \$1, \$2, \$5, \$10 and \$20, are much different from the original issue and closely resemble the National bank note. They are printed on both sides of a paper having an unusual yellowish tinge which would be very hard for counterfeiters to reproduce. Every safeguard possible was employed in their printing to prevent counterfeiting one of the precautions being that each certificate bears the signature of one of the members of the committee representing the Clearing House Association. On the face appears a lion's head. The face was designed by Irwin-Hodson Co. and the back by Bushong & Co.

The great majority of American citizens only know there are new \$10 coins in circulation because they read it in the papers.

Alabama has now gone dry. The southern colonel is making his last stand in Kentucky but he will soon be a thing of the past.
