

# HAPPY NEW YEAR

CONDON, OREGON, FRIDAY, JANUARY 3, 1908.

NO. 42.

## SUNDAY TRAINS ARE A THING OF THE PAST

### New Contract for Carrying Mail Does Not Include Sunday Mail as Heretofore.

The local Sunday train which has in many ways proved a benefit to the people of Gilliam county has been discontinued for some time at least. Perhaps the most inconvenient part will be the loss of the Sunday mail, but this is offset by the fact that it will be a boon to the crew on this branch, who have, under the former schedule, had no time to spend at home at all.

The reason of the discontinuing of the Sunday trains is that in making the new contract beginning the first of the year for the carrying of the mail the railroad company has eliminated from the form the Sunday mail heretofore included. The new contracts on the branches feeding the main line of the O. R. & N. only call for the carrying of mails on six days so Sunday trains on all branches have been taken off.

#### Fitzwater-Cochran.

J. Robert Fitzwater and Miss Pauline Cochran were united in marriage at the home of the bride, at 5 o'clock Wednesday evening, in the presence of a few immediate relatives and friends. The impressive marriage service was read by Rev. Riggs. The groom is a son of J. K. Fitzwater and is a prosperous young farmer. He is well known and highly respected throughout the community. The bride is prominent in social circles and has a host of friends over the county. The Globe joins with their many friends in congratulation and in wishing them success and happiness.

Another popular young man promised us the job of writing up his wedding this week also, but as it does not as yet appear on the records that he has secured a license it will not do to mention his name in this issue. However, it will not be long before our readers will have the pleasure of reading half a column with his name as one of those at the head.

Arthur Schilling spent Christmas with his mother and Herbert in Forest Grove, returning Friday of last week.

Mr. and Mrs. J. H. Downing left this morning for Vancouver, Wash., where their daughter, Mrs. Geo. Wright, lives, to assist if possible in unearthing the facts in connection with the strange disappearance of Mr. Wright which occurred some weeks ago. The last seen of him was when he boarded the ferry boat for Portland since which time the police and detectives have been searching for him without finding the slightest clue to his whereabouts.

The local train has had a variety of baggage cars within the past year. This morning it was a common box car.

Frank Robinson, who started the Condon Amusement Hall three years ago, is now opening an amusement parlor and cigar stand in Portland.

## Oregon Sheep Win Prizes.

High honors were won by Oregon sheep when some Lincoln merino yearlings, purchased last spring of Smythe & Son of Arlington, took first and second prizes at the International Stock Show at Chicago. The prizes were competed for by sheep from almost every state in the west. Following the show these prize-winners were sold for \$6.10, which was a price 35 cents higher than that given for any other at the show.

Jas. Kirlin left this morning for Los Angeles where he may remain throughout the winter.

Fred Groves who has been spending a week or two in Condon returned this morning to Arlington.

Fred Wilson was a passenger this morning for outside points.

## The Truth As It Is.

Be Not Deceived—Prices Have Dropped.

We have coal in our bins that cost \$11 per ton and have coal coming that costs but \$8.50 per ton. Conditions in the coal trade are exactly the reverse of last year. At this time last year coal could not be had at any price from Wyoming and other rail points, the only available supply for Portland, to be depended upon, was Australian coal, and that in small quantities and at high prices. The importers of this coal expecting like conditions to prevail this year as last bought very heavily of Australian coal and this coal is now coming to Portland at the rate of several cargoes per month. *Notwithstanding the panic having changed conditions in all lines, which has placed Wyoming, Washington and Oregon coal in the market at much lower prices and will cause those importers to drop prices below cost, entailing a loss of nearly one hundred thousand dollars to one firm.* We purchased some of this Australian coal last year that cost us \$15.90 per ton delivered at Condon, and thought we were favored in being given it while other people all over the state were clamoring for coal and could not get it, we being besieged for this coal at any price before its arrival at Condon. We aim to protect our patrons at all times, not alone in price, but in the assurance that they have coal available at all times. And you will find our prices as low or lower than those prevailing in any section of eastern Oregon. We meet all legitimate competition and guarantee our weights and measure, and only ask that you buy where you can buy the cheapest, quality and service considered. Prices have dropped in all coal mining sections as well as retail communities and we have dropped our prices in conformity thereto. Thanking you for your patronage (a large volume of which we have enjoyed) and assuring you we will always have coal and make the prices right, and wishing you a happy and prosperous New Year.

Yours very truly,  
ARLINGTON LUMBER CO.

#### Circular.

To ALL DEALERS:  
On and after Monday, December 26, the price of Rocky Mountain lump and nut coal will be \$3.00 per ton of 2000 pounds, f. o. b. cars at the mines, Almy, Wyoming, on railroad weights at point of shipment, Evanston, Wyoming. All orders unfilled, in whole or in part, on the books of this company will be subject to this price.

ROCKY MOUNTAIN COAL AND IRON CO.

## SCHOOL DISTRICT VOTES A TEN-MILL TAX LEVY

### May Be Last Levy on District for Support of Local High School, June Vote to Decide.

At the school meeting of the Condon district on last Saturday was voted a school tax of ten mills. This extraordinary high tax had to be levied on account of the indebtedness of the school district, most of which has been caused through the maintenance of the High School during the last three years. The people of this school district have been working for many years for a better school and an addition of higher grades which has naturally proven very expensive as the different grades have been added from year to year. At present it is estimated that the district has added about \$250 per month to the expense list for the payment of high school teachers; hence the increase in the tax levy.

The work of the high school in this city has already proven a boon to the community in bringing many people here during the winter to seek higher grade advantages. But as the county high school problem is to come up at the June election there is no doubt that the Condon district after this year will not have to bear alone the expenses of running a high school.

The Kerr, Gifford office is being moved to the west end of the Condon National Bank building. The room has been fitted up and this gives them one of the finest offices in the city.

In the game on New Year's Day between Multnomah and St. Louis, the former won by a score of 11 to 6. The Missouri boys were "shown."

## THE TRUTH

Some people's advertisements are characteristic of their way of doing business. The truth is, coal is higher at the mines in Wyoming now than it was a year ago when the people of Condon were paying from \$5 to \$8 per ton more for it than now. Why the difference? Blame Simpson for it. The panic had nothing to do with it. I have lots of coal and will have all winter. Get prices of

C. A. SIMPSON,  
at Condon Steam Laundry.

## How a Cough Starts

A cough is like a debt in that both may be easily contracted but soon become a nuisance and often mighty hard to get rid of. It takes very little to start a cough or cold. An open window, an open door, sitting in a draught, insufficient clothing, a sudden change from a heated interior to a cooler atmosphere—these and plenty other reasons are quite sufficient to cause one to realize that a cough or cold has lodged in the system. The symptoms are slight. The inconvenience is trifling. But if it remains unchecked the cough grows worse and presently it develops into a downright nuisance. The tickling sensation at first experienced is Nature's warning that an irritation is affecting the mucous membrane lining in the throat and bronchial tubes. Every cough affects this delicate membrane. The longer you cough the more affected it becomes. Presently the membrane becomes inflamed and congested. Coughing becomes frequent and painful, after which the results become more direct, dire and disastrous. It is therefore obvious that an effective quietus should, at the very outset, be put upon the cough. This is best done with WHITE PINE AND TAR WITH CODEINE COUGH SYRUP. Prepared by

R. L. HUNT, Druggist
