All copy for changes of display ads MUST be brought to this office, not later than Monday evening. Local advertising must be in by Tuesday evening except in cases of emergency. These rules will positively be carried out.

It is as easy for a business man to write up an ad on Monday morning as on Wednesday or Thursday and nine times out of ten it will be a better ad because when he puts it off until the last day he is in a hurry and does not take time to write up an attractive ad. This is the only reason why some advertisers are not satisfied of the results. You cannot expect the public to read your ad if it is unattractive and that is certainly what it will be if you spend only a few minutes on it. It is our business to set your ad according to copy, however if you do not understand how to arrange a "business producing ad" bring in your copy on Monday forenoon and we will arrange for you—a result winner.
