CIRCUIT COURT DOCKET LIGHT

Work Transacted in Two Days— Many Suits Dismissed— No Cases Tried.

The January term of the Circuit Court was extremely short. Almost all of the old cases on the docket were disposed of by being dismissed. One or two defaults were taken. There were no criminal cases on the docket and no divorce cases for trial.

The following mentioned are the only ones of importance: In the case of the Arlington & Pacific Coast R. R. Co. vs. Oregon Railroad & Navigation Co.; Columbia River & Oregon Central R. R. Co. and W. H. Bell the plaintiff filed motion for continuance on the grounds that a disagreement had arisen between plaintiff and the former attorneys and that the present attorneys were not ready for trial. The motion was overruled and plaintiff took voluntary non-suit.

In the case of A. J. Cochran vs. J. A. Richmond, neither the plaintiff nor his attorneys appeared but filed affidavit and motion for continuance which was over-ruled and defendant's proof was submitted to the court on his counter-claim and his damages assessed at \$16.50.

J. W. Enberg & A. N. Montgomery vs. C. W. Wester— motion for new trial was over-ruled and plaintiffs' costs bill was allowed by court. F. B. Golden vs. E. A. Stinchfield and others—Demurer to complaint was over-ruled and defendants were allowed thirty days in which to file answer; case set for trial on first day of April term.

Wedding Announcement.

Invitations are out announcing the wedding of Gerald Thomas Burns and Katheryn Rose Wambold at 8:30 Wednesday morning, January 15th, at St. Mary's Church in Toledo, Ohio. A reception will be tendered them at the home of the bride's parents from eight until eleven o'clock. The groom was formerly one of the efficient clerks in Dunn Bros. store and has a host of friends in Gilliam county. The bride is one of the most popular young ladies in Toledo. She has always been prominent in social circles and by her winning disposition and talents has made scores of friends in and around her home town. Mr. Burns, in partnership with Fred Bohm, also formerly of Condon, has opened a merchandise store in Toledo and will make his future home there. The romance of this young couple, which will culminate next Wednesday morning, started before Mr. Burns came to Oregon over five years ago. The GLOBE joins with their many friends in offering congratulations and best wishes for their success and happiness in the future.

Crane-Smith.

J. F. Crane and wife, (nee Miss Agnes Smith), returned on January 1st from Wilmington, Delaware, where they were united in marriage on December 18, and are now at home on their fine farm in the Mayville country. The wedding was the result of a romance running back through a period of twelve years when Mr. Crane, who was confined to his room in Pendleton with a broken arm, was tenderly nursed back to health and happiness by the present Mrs. Crane. Through the aid of the little fellow, "Cupid," an everlasting love arose between the sufferer and the nurse, and, although the two were separated for many years, Mrs. Crane returning to her home in Wilmington where she has since followed her profession and where she is loved by all her and the many patients she has had in charge, the strong ties of friendship which were formed in the sick room between the two were never forgotten. The result was a trip East by Mr. Crane and the romance culminated in a wedding. Mr. Crane is well known and respected in Gilliam county having made his home here for the past 18 years. The GLOBE joins a large number of friends in wishing the newly married couple happiness and success through life.

How a Cough Starts

A cough is like a debt in that both may be easily contracted but soon become a nuisance and often mighty hard to get rid of. It takes very little to start a cough or cold. An open window, an open door, sitting in a draught, insufficient clothing, a sudden change from a heated interior to a cooler atmosphere—these and plenty other reasons are quite sufficient to cause one to realize that a cough or cold has lodged in the system. The symptoms are slight. The inconvenience is trifling. But if it remains unchecked the cough grows worse and presently it develops into a downright nuisance. The tickling sensation at first experienced is Nature's warning that an irritation is affecting the mucous membrane lining in the throat and bronchial tubes. Every cough affects this delicate membrane. The longer you cough the more affected it becomes. Presently the membrane becomes inflamed and congested. Coughing becomes frequent and painful, after which the results become more direct, dire and disastrous. It is therefore obvious that an effective quietus should, at the very outset, be put upon the cough. This is best done with WHITE PINE AND TAR WITH CODEINE COUGH SYRUP. Prepared by
