NO. 4

SCHOOL TEACHERS INVADE CONDON

Gilliam County Institute Is Most Successful and Interesting.

THREE DAY'S SESSION

State School Supt. Ackerman and President French of the Weston Normal School Were Present.

The Teachers' Institute for Gilliam county convened in the public school building of this city on Wednesday morning with an attendance of thirty-five teachers and a strong corps of instructors. Among the leading educators of the state who were present were, State School Superintendent Ackerman, Mr. Jones of the Oregon Teachers' Monthly magazine and President French of the Weston Normal School.

All the sessions of the Institute were very interesting as well as instructive. The periods of Wednesday were taken up by Supt. Ackerman who spoke on the study of Arithmetic and Miss Ranney on reading. In the afternoon Supt. Ackerman took up the study of Language and lectured on "Helping, not hurting" in which he showed how self activity in a child could be brought out for the best advantage without urging it along too strongly and without doing any harm.

On Wednesday evening State School Superintendent Ackerman spoke to a number of the teachers attending the institute and some of the townspeople on the subject, "What the Home does for the School". He treated his topic in a very interesting manner, giving illustrations how the parents can co-operate with the school and thus make the teacher's task a more pleasant one. Supt. Ackerman also spoke in behalf of a county high school and said that he expected that Condon would have a complete county high school in a very short time. He went on to picture out the high school in ten years from today with its many and varied courses, a school which would prepare pupils at home.

Everyone present enjoyed the superintendent's words and from the attention given him, it can be said that those present heartily agreed with his plans.

President French of the Weston Normal School was also present at the meeting and preceded Supt. Ackerman with a few words, giving the audience an idea as to what the schools of the present day were doing, and the part they were taking in the forward movement of our country.

On Thursday the morning session was taken up by President French, who spoke on the studies of psychology, history, arithmetic and nature work; the new books, showing how teachers could use them to the best advantage of the pupils. Miss Ranney again held two periods in reading.

Today's session commenced with a review of study of psychology by Pres. French, followed by Miss Ranney's hour on reading. Pres. French also spoke

on Arithmetic, taking for study the objective point of view of fractions. This afternoon, the closing session, was given over to the study of Language under the direction of Pres. French.

N. FARNSWORTH, MAYOR
City Election on Monday a Quiet Affair—New Officers Take Charge July 1.

The city election of last Monday was one of the quietest affairs ever pulled off in Condon. This was no doubt on account of the political campaign being waged for the offices of Senator and District Attorney in this district. The "Citizen's ticket" as named at the mass meeting held the previous week at Armory Hall was elected without any opposition, although a few scattering votes were cast for other persons for the office of mayor.

In all there were only 71 votes cast, which goes to show that few took interest in the election. The ticket as elected is: N. Farnsworth, mayor; J. A. Scott, R. E. Myers and J. W. Hire, councilmen for two years; J. C. Hardman, councilman for one year.

THE AFTERMATH.

Courts of District Will Be Busy as the Result of Political Campaign.

A warrant for the arrest of John A. Collier, district attorney, for selling liquors in a dry precinct, was issued by J. D. McFarland, Justice of the Peace at Fossil on Tuesday, and the district attorney, who is now out campaigning in Gilliam county, will be arrested to answer for this crime as soon as he returns to Fossil.—Fossil Journal

Proceedings for criminal libel and civil damages have been started in Sherman county by County Judge Geo. B. Bourhill against the editors of the Sherman County Observer. Judge Bourhill has retained the three leading attorneys of Moro, Messrs. Meindl, Bryant, and W. H. Ragsdale, and W. H. Wilson of The Dalles, to prosecute the cases against the Observer people.

Last Saturday, April 11, District Attorney J. A. Collier filed an information, which under the Oregon law is equivalent to an indictment, against James Stewart of the Fossil Journal for criminal libel alleged to have been committed against Jay Bowerman, his political boss and benefactor. A bond of \$1,500 had been fixed by Judge Littlefield on March 30th 1908, twelve days before the information was filed. "When it became known that we were indicted by Collier, says the editor of the Fossil Journal, 'six of our leading citizens and temperance workers came to our office and signed the bond, and would have signed just as cheerfully for \$15,000 as they did for \$1,500.'"

Mikkalo-Blom.

The East Oregonian of April 8, says: Yesterday evening Mr. Henry Mikkalo and Miss Ethel Blom, both of Gilliam county, were married at the Baptist parsonage, Rev. R. E. Storey officiating. The bride was daintily dressed in white and wore roses in her hair. After the ceremony Mr. and Mrs. Mikkalo started for Gilliam County. They will reside at Mikkalo, 18 miles from Condon, where the groom will devote his time to the large ranch which he and his father own.

WORK ON CONDON'S \$20,000 SCHOOL BUILDING BEGUN

Will Be Completed by Beginning of Fall Term—Will Be Modern in Every Way—Location is Imposing and Beautiful.

The work of the excavating for the big Catholic school which will be built in Condon this summer, was started last week and will be pushed to completion as rapidly as possible. The excavation will all be done by donation work and as this is the busy season of the year for the farmers the work is progressing slowly. The school will be built by contract. The building will be 68x96 feet and will be practically four stories high as the basement and attic will both be finished. It will be heated throughout by hot water and all other modern conveniences will be installed. It is expected that the building will be finished before the fall term of school commences. When completed it will be one of which any city could well be proud.

Crop Prospects Are Excellent.

The grain is sprouting up very fast the last few days and the farmers are again wearing that contented smile. Reports from the Mayville flat say that the fields are taking on their velvety green coat and that since last week the grain has sprung up in a surprising manner.

There is plenty of moisture in the ground at the present time but warmer nights are needed. In the northern part of the county the prospects are equally bright. S. T. Bunch & Sons of Blalock, who are extensive grain growers and who will harvest 3100 acres this fall, say that the prospects look good. Last year they had in 2600 acres which averaged 19 bushels to the acre.

Preaches His First Sermon in Condon.

Rev. Murphy preached his first sermon from the pulpit of the Congregational church last Sunday before a large and attentive congregation. Rev. Murphy is a forceful speaker and his words were well received. The Globe joins the people of this city in welcoming the reverend to his new field of labor. His family will arrive in Condon in a few days.

A NEW VENTURE.

Ed. Palmer Will Plow 1700 Acres with 22 H.P. Gasoline Traction Engine.

Ed. Palmer of Ferry Canyon recently purchased a twenty-two horse power gasoline traction engine to do his plowing with this spring. The big machine arrived in Condon Monday evening and was run out to Mr. Palmer's ranch in the Ajax country on Wednesday.

The engine will pull eight 14-inch plows and Mr. Palmer expects to turn over twenty five acres per day. Considering the fact that he has 1700 acres to plow, there is no doubt that his purchase will prove to be a good one. This engine is the first to be brought to this county for this purpose and the experiment will be closely watched.

Good News for Gilliam Anglers

Nearly a half million Rainbow and Eastern brook trout are ready for distribution in waters of Oregon, Washington and Idaho, after having been fed for several weeks at the Clackamas station of the United States Bureau of Fisheries. They will be sent out by Supt. O'Malley of Oregon City according to allotments made by the department in Washington. Among the places to receive a share of these trout is Arlington, from where they will be placed in the creeks of Gilliam County.

Arrived this Week

A shipment of the famous HANSEN GLOVES, in both gauntlet and plain cuffs. Prices 50c to \$2.00. The best work glove made.

Also a shipment of Ladies' Shoes, in both high and low cut. The "Gotzian Shoe" that fits like your footprint. See our celebrated Electric welt shoe for men. \$5.00.
