

# NEWS OF THE WEEK

Mrs. J. J. Portwood left on Monday for Salem where she will attend the convention of the Rebekah Lodges of this state as a delegate from the local lodge. She was joined by Mrs. M. M. Cushing of Mayville and Mrs. W. W. Hoover of Fossil, who will represent their respective lodges. Mrs. Portwood will visit in the valley for about a week.

Louis Doonar returned to Condon last Saturday, having sold his telephone system in the city of Bandon over on the coast. He says that things are quiet over in that vicinity at the present time. Mr. Doonar is now looking for a new location and leaves for Wyoming soon to look after mining interests.

C. A. Simpson is over in the Alberta country looking over the sheep business with a view of purchasing. Letters were received from him the first of the week from Vancouver, B. C.

J. P. Rollins, the new photographer, has completed the renovating of his studio and everything looks neat with its new coat of paint, paper, beautiful backgrounds and screens. Condon has needed such a man as Mr. Rollins as he knows his business from A to Z. There is no need of going to Portland now, as his stock is the latest. See his ad elsewhere.

The public school children are all wearing happy faces these days—as vacation commences on next Friday.

J. C. Thrall of The Dalles is in town in the interests of the National Livestock Insurance Co.

The St. Thomas Aquinas school will close on next Friday for the summer vacation.

Chas. H. Williams has been requested to address the Association of Oregon's Retail Jewelers at their meeting in Portland during the Rose Festival. The subject of his address will be "The Benefit of Organization." The fact that Mr. Williams is one of the foremost officers of this association speaks well for his ability as an organizer as well as a jeweler and Condon should feel honored to be one of the few that are so well represented.

Dr. Taylor, the veterinary, accompanied by Herman Pauling had a thrilling experience Tuesday while driving out in the country to answer a call. They were driving down a hill when one of the horses kicked over the tongue, its weight breaking the tongue close to the buggy. Seeing trouble, Mr. Pauling jumped out while the doctor who held the reins, tussled with the frightened horses until the tugs broke loose. The horses plunged ahead with a clear field dragging the doctor over the dash board but in the fall got away from him. The horses were caught while trying to return to town. Outside of a few bruises the worst that befell the gentlemen was the three and a half mile walk back to town. Dr. Taylor took a few stitches in one of the horses on account of a bad cut on barbed wire.

Howard Strickler returned on Tuesday evening from a week's visit in the Rose City. On arriving home he found that four of his full blooded bullterrier pups had been poisoned and that only two of the six remained. He had already sold two of the ones that died for \$40 and which would have grown into prize winners at any bench show.

The buildings on the west side of Main street, owned by Johnson & Pliter, are being improved with a new coat of paint.

interior of the Balsiger & Amusement Hall present and homelike appearance. A new coat of white paint and paper.

Dan Tierney is in town this week, where he underwent an operation. He is improving and is expected home Saturday. C. L. Hogmeier is helping Miss Hughes in the railroad office during Mr. Tierney's absence.

Ruff Stanton left Wednesday morning for Roosevelt, Wn., to work for some time.

Dr. Gavey returned from San Francisco Wednesday evening.

A. Hartman and Wayne Grider represented the local Odd Fellows, and Mr. Cushing the Mayville, at the state convention in Salem this week.

The baseball game last Sunday on the local diamond between the Condon and Olex teams resulted in a score of 7 to 2 in favor of the home team. Both teams played well and the game was interesting from start to finish. The local team will cross bats with the Fossil boys at this place next Sunday. Arrangements are under way for a game between the Heppner and Fossil teams to be played here on Saturday, May 30, and a game between the Condon and Heppner teams on the following day.

### NOTICE.

#### New Method of Collecting Water Rents.

Beginning June 1, 1908, City Water Rents will be payable at the office of the City Treasurer, in W. L. Barker & Co.'s store instead of being collected by the Marshal as at present. All water rents will be due the first of each month and will be delinquent after the tenth. Delinquents will be charged with the expense of disconnecting their supply pipes from the water main, which amount must be paid before the water will be again turned on.

By order of the City Council, May 4, 1908.

#### Horsemen, Attention!

One of the most important branches of Veterinary Science is Veterinary Dentistry, and this department in this country has been neglected owing to the scarcity of Veterinarians. The horse, after he has reached the age of five years, has a complete new set of teeth, and as he grows older and the teeth wear, they cause numerous diseases and disagreeable habits, heretofore ascribed as constitutional trouble which have been traced to the teeth; such as blindness, drooping, stopping short, starting suddenly, frothing, loss of flesh, weak eyes, driving and pulling on one rein.

Rough edges and sharp corners of the teeth lacerate the mouth and produce nervousness and irritability; uneven and elongated molars and incisors prevent the proper mastication of the food, producing indigestion and general debility. Decayed molars cause necrosis of the bone, abscesses, nasal gleet, fistula of the jaw, etc.

DR. L. L. TAYLOR, Condon, Oregon.
