Miss Clara Irvin is spending the week in Fossil with friends. Miss Irvin taught in the High school at Fossil the year before coming to Condon. She will leave for the valley the first of next week to spend the summer.

C. E. Judd, representative for the Watkins Remedy Company, in Gilliam and Morrow counties, was in Condon Friday on a return tour of the Ferry Canyon neighborhood in the interests of the company he represents. While in the city he became a subscriber to The Globe and left in the evening for his home in Arlington.

The "Condon Grays" is an appropriate name for the local baseball team since it has chosen gray as the color for its new uniforms. In their new suits the boys present as attractive a bunch of players as ever donned baseball togs. A tasty monogram showing the letter "C" in old English style and done in black enblazons the blouse. The trimmings are black and orange stockings with a black stripe complete the regalia.

Mrs. Rogers, of the Oregon hotel, is visiting in Portland.

J. C. Hardman returned Monday evening from the Twin Falls country. He speaks favorably of that section and may invest in irrigated land.

The local freight office has received notice that effective April 15th the rate on Wool to Eastern points will be from Condon \$1.60 and from Hepper \$1.62.

Conductor W. T. Shirrey who has been in charge of the Condon flyer during the past three months left for other field of labors after the first of June. We wonder if the idea of a "dry" town made him "vamoose."

Prof. J. Potter who has been principal of the Fossil schools during the past year, was in Condon Wednesday on his way to Walla Walla. Mr. Potter will not return to Fossil as he intends to spend several years in college. He will be greatly missed among athletic circles in Fossil where he took great interests in baseball and football.

The O.R. & N. Co. placed the first of this week a train agent on the Condon Flyer in the person of W. S. Reynolds, of San Francisco. All the branches feeding the main lines now have these officers who will be of material assistance to the conductor who will thus be able to give more attention to the passengers. The train agent has power to sell tickets to any point and acts as an auditor for the train. The experiment is a new one but Mr. Reynolds thinks that it will not be long before such officers will be placed on all trains.

### Seventh Proves Hoodoo.

Condon's baseball players struggled against the decrees of Fate Sunday when they met the Fossil aggregation on their own grounds. Yet it was a rattling, good game and the local boys had it all their own way when by some untoward circumstances in the seventh inning, the score which up to this time had been 6 to 2 in favor of Condon took a frightful leap toward the Fossilites who brought in five runs during that fateful canto. From that time on the result of the game was in the hands of Fossil and when the contest ended the score board showed 11 tallies to the credit of the Wheeler county nine and 6 for the plucky representatives from the "Wheat City." The batteries were as follows: Condon-Stinchfield and Beeson; Fossil-Coryell and Rinchart.
