Born—In this city, at the home of Mrs. Hire, to Mr. and Mrs. Will Smith, of Matney Flat, a daughter, Thursday morning. The mother and child are doing finely and the father is the happiest man in Gilliam county.

John Elias, the painter, has property interests in Milton but has not been there for several years. He had heard that Milton was growing considerably but wanted to get reliable information on the subject. Hence it was natural that he should come to the Globe office. A Milton paper and a number of Umatilla exchanges were available containing information which Mr. Elias prized much. Moral—When going away from the home town, keep posted by subscribing for the home paper. Suggestion—When away from Condon, see that you get the Globe regularly.

Down in Texas they now know that Walla Walla is on the map and that it is a live, progressive town in far-away Washington. A Merry Widow hat did it. The Walla Walla delegates to the national convention of Elks wore broad-brimmed Merry Widow hats that set all Dallas to goggle like owls. The hit made by the eccentric head-gear was instantaneous. The big sombreros of the Texans faded into insignificance when measured by the hats of the Elks from the Evergreen state. The "lid" that made Walla Walla famous was worn by W. A. Ritz and was of huge dimensions. It was made of straw and was five and one half feet in diameter, with a crown 18 inches in diameter and 15 inches high. When crated and ready for shipment, the hat weighed 20 pounds. It will be kept as a souvenir by the home lodge.

To Take Cattle to Washington. The light hay crop in Wheeler is proving a serious handicap to the stockmen of that section. Many of them will take their herds to Washington where they will winter them because of the abundance of hay in the Yakima district. It is reported that G. L. Fitzgerald, one of the leading stockraisers of that county, will drive his cattle in September to Toppenish, where alfalfa hay may be purchased at \$4 per ton.

Municipal Ten-Mill Tax Levied

Since Wheeler county has gone "dry," the town of Mitchell has found itself up against the real thing and has had to provide a source of revenue, to meet the needs and burdens of the city government. According to the Sentinel, the people there have been compelled to levy a ten-mill tax on all taxable property in the town but worst of all the town marshal's salary had to be decreased materially.

Change in Fossil Hotel.

Harlan Roper this week disposed of his one-half interest in the Hotel Roper and the Condon-Fossil stage line to Fred Welch for a consideration of \$3,700, who will take charge of his interests in this popular hostelry on August 1st. Mr. Welch has been in the employ of Hilton & Burges, extensive sheep owners at Pine Creek, and is a bright and energetic young man who will prove a valuable acquisition to Fossil. Mr. Roper, the retiring member of the old firm of Roper Bros., has as yet not fully decided on a future occupation, but is thinking some of removing with his family to the old home in North Carolina.—Fossil Journal

A Summer Substitute for Meat

In the August Woman's Home Companion, Fannie Merritt Farmer gives a number of hot weather substitutes for meat. One such substitute consists of cheese and macaroni croquettes: "Break macaroni in half-inch pieces; there should be two thirds of a cupful. Cook in boiling salted water until soft, drain in a colander, and pour over two cupfuls of cold water, to prevent pieces from adhering. Add thick white sauce made of two and one half tablespoonfuls of butter one third cupful of flour, one cupful of milk, one fourth of a teaspoonful of salt and a few grains of pepper; then add one-third of a cupful of grated cheese. Spread on a plate to cool. Shape, dip in crumbs again fry in deep fat, and drain on brown paper."
