CONDON, OREGON, FRIDAY, AUGUST 21, 1908.

NO. 22.

DEARTH IS NO MORE

Valley Teachers Want to Come to Gilliam.

ALL PASS THE EXAMINATIONS

County School Superintendent Receives Many Applications—Six Teachers Are Successful.

Nothing gives results like newspaper publicity. Two weeks ago the Globe published a brief paragraph stating that Gilliam county was in need of a score of school teachers. The story went to the Portland papers and Superintendent Sturgill has already received eighteen applications.

The clerks of the school boards which have not as yet secured teachers will profit by communicating with the county school superintendent.

In the recent county teachers' examinations, the following received certificates:

First Grade—Mrs. J. A. Randall of Condon.

Second Grade—Miss Cora Wilkes of Fossil; Miss Ida V. Gillette of Lents, Or.

Third Grade—Miss Julian Thomas of Mayville; Miss Emma Anderson of Condon; Miss Georgia Phillippi of Early.

H. J. Simmons, school superintendent of Wheeler county was an applicant for state papers but as they are passed on by the State Board, he will not get returns from them until about September 20th.

MAYVILLE GRANGE WILL DISCUSS WHEAT RATES

Farmers Fear Agreement they Signed Is not for their Best Interests.

At the monthly meeting of the Mayville Grange held in their hall recently matters of importance regarding the coming fair were discussed. Master C. J. Quinn, presided at the session.

After the transaction of routine business, a committee consisting of Mrs. Taylor and Mrs. W. G. Keys, was appointed to solicit funds to provide for the premiums to be offered at the fair. The members of the committee will concentrate their efforts in the Mayville locality only since the other granges will work in their respective territories. The fair is being better advertised than formerly and the members of the Grange are enthusiastic for the success of the event.

Mayville grange showed that it is a live institution by bringing up a discussion of the reduction of the wheat rates on the O. R. & N. to Portland. While some of the members admitted having signed the agreement proposed by certain Pendleton parties, they expressed the opinion that the scheme was not favorable to their best interests, some went so far as to declare it some sort of a "graft." The proposition is to be fully discussed at the next monthly meeting of the grange by the lecturer.

It was announced that the wreaths for the lady officers, won in a contest last year, had been sent by the state organization.

Coaches to Be Made Clean.

The new compressed air cleaning plant of the Condon branch, as mentioned in The Globe two weeks ago, will be put into commission tomorrow, and the coaches of the "flyer" will be as clean as any Pullman traveling in the United States. The plant has a pressure of ninety pounds, thus enabling it to make all particles of dust vanish before it. It will also prove a great innovation in the way of a germ killer, thus insuring the patrons of the company the best and safest traveling accommodations.

Surveyors Seek Grade Out of City

Surveying on the new electric line, which is to invade the interior, is on at full blast, O. Denny, the San Francisco engineer, with a gang of men, having arrived last Saturday. When seen last evening, Mr. Denny reported that surveys were now being made in several different directions south of town in order to get the best grade. The fore part of the week the surveyors ran a line out toward Snipion Hill, west of Condon, and on out to Hog Back and on the public road to Mayville, but the route did not prove feasible. Another survey was made down the canyon south of town running down Thirty-mile canyon, but this route was found too steep and the turns too sharp. Today the crew started to run their levels toward the Maddock canyon, and this will, no doubt, be the most feasible route out of the city to reach Fossil.

Safe Deposit Boxes Installed

During the past week the Condon National Bank has installed for the convenience of its patrons a Safe Deposit Box Department which will enable the friends of that financial institution to find a safe place for their valuable papers and articles.

The safety deposit department is composed of fifty boxes of different sizes made up in three sections. The bank has placed these boxes for the convenience of its patrons, many of whom have already taken them. Located in the big vault, these small steel encased boxes are abso-

lutely secure against theft and fire. These boxes are provided with two keys each, which open none but the box to which they belong, one key is given to the renter, the other remains at the bank. Without the two keys the deposit boxes cannot be opened.

The accompanying cut shows the splendid concrete building, the home of the Condon National bank. The structure would be a credit to a city twice as large as Condon. Its appointments are modern throughout.

ANOTHER WATERSPOUT. IMPROVED MAIL SERVICE

Heavy Rain and Lightning Do Considerable Damage in Mayville Neighborhood.

An electrical storm raged throughout this section Wednesday evening and did considerable damage in some parts of the county. At Condon copious showers fell, but in the Thirty-mile neighborhood a waterspout, claimed by some to be the largest that ever occurred in that section, played havoc with property.

The worst of the spout struck in the Buckhorn section, near the Wehrli place. Thirty-mile was changed into a raging torrent, and at the Max Smith place the current is said to have been so strong that it washed out a barn and sent some of the timbers careering against the house, doing considerable damage. Sam McGilvray, the roadmaster, is reported to have lost two valuable cows. The road leading from Thirty-mile and passing near the McGilvray place was washed out for quite a distance. A. Shaffer, early Thursday morning, lost a wheatstack, which was set on fire by lightning.

Don't forget the Welch Stock company at the Condon opera house three nights commencing Monday night. Opening play "The Runaway Wife."

Condon and Points on Columbia Southern Benefit by New Schedule.

The inauguration of a more adequate mail service between Condon and points on this branch and those on the Columbia Southern railway took place last Tuesday and is proving beneficial to business interests here. The movement for the establishment of better mail facilities was first mentioned in The Globe two weeks ago. Heretofore it took three days to get return mail between points on these lines. This slow system of mail delivery was due to the fact that the Pendleton local did not stop at Arlington so as to take the branch mail and connect at Biggs.

Now a closed sack is made up by the mail clerk on the Condon branch, placed on train No. 7 at Arlington and carried the same day to Wasco, Moro, Grass Valley and other points.

Crops Good at Condon.

Fred Weigle has returned from a ten days' vacation spent at Seaside and Condon. Mr. Weigle says that the outlook for a fine harvest in the vicinity of Condon is very good. Some of the wheat fields there will yield thirty bushels to the acre.—The Dalles Chronicle.

FAIR FOR FARMERS

Agricultural Exhibits Growing in Favor.

EXTENSIVE ARRANGEMENTS

Committees at work for Advertising Fairs at Mayville, The Dalles, and Salem.

Agricultural fairs are of immense benefit to farming communities. They promote the development of various phases of husbandry by stimulating farmers to grow better crops and to raise higher grades of livestock. There are three fairs that are of interest to Gilliam county ranchers—the local fair at Mayville, the district fair at The Dalles and the state fair at Salem.

At Mayville.

To Gilliam county farmers the agricultural fair to be held at Mayville October 8 and 9th appeals with more than common interest because it is a home fair conducted by home people. The Mayville grangers are making special efforts to make the event an unqualified success. The premium list has been compiled and will be in the hands of the printers this week. The entries for livestock and agricultural exhibits may be made at once with the secretary, George B. Dukek. Master C. J. Quinn has recently appointed a committee to solicit funds for the premiums.

(Concluded on last page.)

Died.

The funeral services of little Mary Sybel Tierney were held at the residence of Mr. and Mrs. D. Tierney by Rev. Father Cantwell in this city Wednesday afternoon upon the arrival of the train, which brought the body from Portland. Sybel, the little two-year-old daughter of Mr. and Mrs. D. Tierney, died in Portland Tuesday evening in the St. Vincent hospital about 7:30. The parents had taken the child to the beach on Monday, but on arriving in Portland the little girl took suddenly sick and had to be taken to the hospital, where she passed away. Burial took place in the Catholic cemetery. The sympathy of a host of friends and acquaintances goes out to Mr. and Mrs. Tierney in this hour of deep bereavement.

MRS. ELLA RANDALL.

Friends and acquaintances paid the last tribute to the memory of Mrs. Ella Randall, whose funeral was held in this city at the home of Mr. and Mrs. S. C. Dodson on Thursday, August 20th, at 10 o'clock. Rev. T. F. Murphy, of the Congregational church, preached the funeral service, after which the body was laid to rest in the Mt. Moriah cemetery. Mrs. Ella Randall, the daughter of Mrs. M. J. McPherson, of Clem, died in the St. Vincent hospital, Portland, while undergoing a second surgical operation on last Saturday at 7 o'clock. She leaves two sisters and four brothers to mourn her loss.

WARNER'S RUST-PROOF CORSETS

Give Satisfaction. We sell them, 50c to \$1.50

For Misses

we recommend J. C. C. College Girl at \$1.25.
