"THE SCHOOL OF QUALITY"

Tenth and Morrison, Portland, Oregon. A. Armstrong, LL.B., Principal. We occupy two floors 65 by 100 feet, have a \$30,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution. **Said a Business Man:** "Keep hammering away everlastingly on thorough work. It will win out in the end." **Said an Educator:** "The quality of instruction given in your school makes it the standard of its kind in the Northwest." **Open all the year.** Students admitted any time. Catalogue free. References: Any bank, any newspaper, any business man in Portland.

## NEWS OF THE WEEK

Mrs. H. E. Spencer and youngest daughter left for Portland Monday to visit for several weeks.

Dr. Wood went to The Dalles Tuesday to attend to some land matters.

Miss Catherine Greiner was visiting in The Dalles the fore part of the week.

Grant Wade bought 110 head of 3-year old steers from Emil Sraube, of Waterman, last week, for \$35 per head. —Spray Courier.

If you have anything to trade, exchange, rent or sell, see to it that you use The Globe Wants.

An exchange says that kerosene will help corns; vaseline or camphorated oil, if persisted in, will cure them. If one continues, however in cutting a corn, it is well to apply a little peroxide which will prevent blood-poisoning.

Miss Brown, a nurse of the Good Samaritan hospital of Portland, who has been near Fossil in attendance on several severe cases of sickness, was in Condon Monday on her way to the Rose City.

G. D. Culbertson, county clerk of the new county of Hood River was in Condon over Sunday on a business trip. Mr. Culbertson is also engaged in the real estate business in the "Apple City."

Oscar Veatch and Campbell Brown have returned from a two weeks vacation at the Meadows and near Baker City. They have been benefited by the outing and have resumed their positions at their respective places of business.

According to the Eugene Register, Ward L. Fisher was among the successful applicants for a second grade certificate at the recent teachers' examination in Lane county. He will be remembered as having played in the band here on the Fourth of July. The report circulated that Mr. Fisher would come here to lead a band was a rather hasty piece of gossip. He will teach in Lane County.

Mr. and Mrs. S. E. Purvine have returned from a two weeks' outing, most of which was spent at the sea shore at Newport. They also visited at Salem where they noticed many improvements. "Salem is taking a spurt," said Mr. Purvine. "State street has been paved as far as Twelfth and Commercial is being torn up before putting on the pavement. New brick buildings are in process of construction and real estate values are keeping high." Mr. Purvine will be at his abstract office from now on.

Improvements were made during the past week in several of the cross walks on Main street, one being in the south part of town opposite the S. B. Barker Co.'s store. The crossing was in bad condition and was proving dangerous as a portion of it was over the old spring around which the city grew. There is heavy travel over that crossing at this season of the year and the repairs were made at the proper time.

CURED HAY FEVER AND SUMMER COLIC.

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Sold by the Condon Drug Co.

His Qualifications. I am reminded, says a writer, of the little boy who applied for a job at a squire's house, where he could earn 5 shillings a week by making himself generally useful.

Squire—Can you clean silver? Boy—Yes, sir.

"Can you cook and light fires and sing and dust old china and make beds?"

"Oh, yes, sir."

"Can you clean bicycles and repair punctured tires and tune pianos?"

"Certainly, sir."

"Can you mend electric bells and do plumbing and gas fitting, teach modern and ancient languages, geography and the use of the globes?"

"I can, and also do anything else that is required."

"Then I think you will do." Boy—Thank you, sir. By the way, is your house built on a clay soil?

Squire—Well, it happens that it is. But what has that to do with it?

"Well, I thought you would like me to fill up my spare time by making bricks."
