COURT CONDON, SO. M. F. OF A. MEETS Mondays evening of each month in Armory Hall lodge room. Visiting brothers are requested to meet with us. A warm welcome awaits you.

Even Condon and Gilliam County fell into line and added their "small mite" by a vote of two to one, to the overwhelming majority given Taft.

The demand of small girls for the Teddy bear instead of the old fashioned doll may be only another manifestation of the society woman's preference for a dog to a baby.

The people of this country have once more decided to remain under Republican rule, firmly believing it means prosperity for four more years. William H. Taft, the man whom the people have elected to the Presidency of the United States, is perhaps better fitted to be the executive of this country than any person who has yet received the honor. His vast experience in the different departments of governmental business has been wide and he has shown himself equal to every occasion. The people have confidence in Mr. Taft as is shown by the overwhelming vote given in his favor. Everything now points to the greatest future and prosperity for this country and its people.

On another page the attention of the farmers of Gilliam county is called to the meeting to be held at the court house on next Tuesday for the purpose of discussing the important matter of locating and establishing an experimental farm in this county. The state has decided to carry on the work provided suitable land is made available for the purpose without cost to the state. A station is bound to be located in either Sherman or Gilliam counties. What is this county willing to do? Do you realize the importance of such an enterprise and its results in a few years? The location of the farm is left entirely to the state and your presence and influence may locate this "dry farming experimental station" in your vicinity.

Has he been presented with that leather medal yet? That poor "overworked editor," who has been attempting to run a newspaper during the past year; who claims to have done so much in behalf of the experimental farm when he first mentioned it last week and then because it was necessary; who hints the Globe had placed cold water on the proposition, when in fact, the Globe's file shows column after column on the subject; who says he is giving his readers too much news for their money, when in fact, he himself doesn't know a news item when it stares him in the face; who has again grasped his hammer because the Globe's true worth as a news giver is being recognized and many a new subscriber has been gained during the past year! He and his big hammer should really be rewarded!

**School Notes.**  
BY LEBBIE HARLAN.  
The schools enjoyed a holiday last Tuesday, Election day being a National holiday.

The High School was fortunate enough to have their pictures taken last week. Mr. Horner tackled the job first but was unable to do much with the small cameras so Mr. McMorris got his seven by nine and did the job up right. He says he intends to send a picture to the rogues gallery.

Report cards were given out last week. The system of monthly examinations in comparison with the quarterly examinations is by far the better, as it enables the parents to keep more closely in touch with the work done by the pupil and also with the teacher. It would be a wise idea for the parents to take a day off occasionally and visit the schools.

To introduce his Gents' clothing in this city and county, Elmgrain the Tailor offers you a saving of 12 1/2 per cent. It will pay you to see him during the time of this offer—this month only. A card from those in the country asking for his prices will do. Mr. Elmgrain expects to make the smaller towns with samples should enough enquiries be made.

Winter blasts, causing pneumonia, pleurisy, and consumption will soon be here. Cure your cough now, and strengthen your lungs with Foley's Honey and Tar. Do not risk starting the winter with weak lungs, when Foley's Honey and Tar will cure the most obstinate coughs and colds, and prevents serious results—Condon Drug Co.
