IMPROVEMENT ASSOCIATION.

The value of a county organization has at last been discovered by the people of Gilliam county, and ranchers and business men from every section have joined the movement with great enthusiasm. The representative body of men, who gathered together in this city on Tuesday evening, is to be praised for its work. They have realized for some time that Gilliam county needed such an organization, that their interests would never be properly represented unless they were united in some sort of an association. Now that the Gilliam County Improvement Association is launched, there is no doubt but that vast results will be forthcoming. Gilliam county is in sore need of advertising, it needs more people to farm its rich soil, it needs the experimental farm station to teach its farmers to secure far better results than have heretofore been received. Such are the aims of the Association and the executive committee, which has been empowered to transact its business, has already done much during the past few days. With these men at the head Gilliam county's interests are bound to prosper and grow from this time on. It is hoped that many more of the people will join in the movement, for 'in union there is strength' and the Association, with its aim, needs all the support that can be given.

THE GRAIN RATE HEARING.

A grain rate hearing was held in this city on Wednesday. The state railroad commission examined a large number of the farmers of this county as to the cost of growing wheat, also to get an idea of the profit of the farmer and to pass upon the justice of the grain rates now charged by the O. R. & N. Company. The commission while in Condon was able to get valuable information which is to be used later when the matter comes up. There is no doubt that the present grain rates are high and it is understood that the commission will endeavor to reduce them. The three men who compose the commission have a high responsibility, they are endeavoring to adjust the rates upon a fair basis and the farmers' interests will be properly looked after.

Prosperity has been rife in all parts of Oregon, and all the election had to do with it one way or the other was to give some men an excuse to wait. Now that even that is useless people are closing great contracts and building activity will be more marked than at any time in the history of the state. Condon has joined the prosperity procession and the Wheat City already shows great progress and activity in every branch of business life.

Even more than guarantee of bank deposits, Mr. Bryan is now doubtless in favor of guaranteed vote deposits.
