Dr. Bancroft—Lewis Coming!

Dr. Bancroft, the psychologist, has been secured by the public schools to give two of his famous lectures in our city. The series of lectures he will give will be intensely interesting and useful information. He is a talented gentleman of pleasing personality. He possesses the rare faculty which enables the clever lecturer to make what he has to say interesting in the highest degree. His powerful discourse on "Hoodooos" will be an interesting and educational treat as the study of mental phenomena has assumed gigantic proportions, and it is well to get information of the presumed to be supermundane right from fountain head as Dr. Bancroft is and has been for years considered an authority in the realm of psychic research.

Dr. Bancroft's series of lectures and entertainments throughout appeal to the higher capacities of the intellect, and the size of his audience should afford a pretty active index to the element of his progress in any community. The features of entertainment, in which the doctor is assisted by D. Lillian Lewis, is of highest order of merit.

The public school of our city deserve great praise in securing such noted talent for our city, as they have arranged for them to appear under their auspices in our city for two evenings, Nov. 30th and Dec. 1st at the Opera House. The advance seat sale for this attraction has been exceptionally large, assuring a large audience.
