

The Condon National Bank building, which was erected in 1906 at a cost of over \$20,000, is the most modern building in the city. It is built of cement blocks, heated throughout by hot water and lighted by electricity. The second floor is composed of the offices of attorneys D. R. Parker and G. W.

Parman, and a number of living rooms, while the ground floor is taken up by the Jewelry store of Chas. H. Williams, the Condon Drug Co., the offices of the Kerr, Gifford Warehouse Co., and the Condon National Bank. The interior of the Bank is finished entirely in genuine solid black walnut.

The Reisacher Building, shown above, is the home of the Famous Reisacher Saddles. It is a two story brick, built by J. F. Reisacher, who conducts a large harness shop. In this building are located, the post office, of which Mr. Reisacher is the official; John Jackson's Confectionery and Book Store; the Home Telephone office, as well as a number of living rooms.

The Gilliam County Bank building, the cut of which is shown above, is a handsome two story brick, built in 1905 at a cost of \$20,000.00. Since that time it has been the home of the Gilliam County bank, but on the first of the year this institution will be known as the First Na-

tional Bank of Condon. On the lower floors are situated the clothing store of Weigel & Co., and the offices of the law firm of Bowerman & Butler, while on the upper floor are the offices of Drs. Wood & Gavey, physicians and surgeons; Dr. B. F. Butler, dentist, and a number of living rooms.

The Eddon & Harrison Meat Market, owned by Wm. Eddon, Ralph Eddon and Chas. Harrison, occupies one of the best arranged buildings in the city. It was built about two years ago by Wm. Eddon and Jno. Harrison, who had designed a modern meat market with all conveniences. The plans also called for convenient quarters for an ice plant, which was installed last summer by John

Harrison. The plant has a capacity of one and a half tons of ice per day and during the past summer proved an important addition to Condon's business enterprises. The Eddon & Harrison meat market has always on hand the finest of Fresh and Cured Meats; Beef, Pork, Mutton and Veal. During the summer their meat storing room is connected with the ice plant, insuring their patrons the best service possible.

RESIDENCE OF F. T. HURLBURT.

During the past few years the residents of Condon have built better and more substantial homes. The two cuts show the type of homes built during the past year.

RESIDENCE OF D. B. THOMAS.

It is only natural that Condon, the largest primary grain shipping point in the United States, should have one of the most modern flouring mills in Eastern Oregon. The Gilliam County Milling Co.'s mill, shown below was built in 1906, just after the building of the O. R. & N. branch, and since that time has enjoyed a vast home trade for its flour—Premier and Olympic—as well as export-

ing immense shipments to the far East. The mill is under the management of Jas. W. Church. The PREMIER and OLYMPIC brands of flour are Condon products, made from the choicest blended Bluestem and Club wheats, and makes the best of bread as shown by prizes awarded at the Mayville Fair. The mill is headquarters for all kinds of Mill Feed, Steam Rolled Barley and Seed Wheat.

The building of the S. B. Barker Co., Incorporated, is a large two-story brick, which is exclusively occupied by the firm and used as a general merchandise store, while several warehouses are necessary to store the large stock of goods carried. The present company was incorporated in 1905 by S. B. Barker, M. O. Clarke and M. C. Clarke, who were formerly in business in this city. Under the management of M. O. Clarke this store has grown from the small country store in a frame building to a modern department store of immense proportions and is doing a most prosperous business, supplying the wants of the ranchers over a vast territory.
