SAMSON WIND MILLS

Are daily growing in popularity, for they embody all the improvements suggested by an experience of 25 years. They are constructed of heavy iron, they will last for years, and they are lighter than all other mills. They are fitted with double gears, forged steel, and removable bearings, and set on a strong base.

Proposals Wanted.

The undersigned, in behalf of the Gilliam County Improvement Association, hereby invite the submission of sites for the location of the proposed dry farm experiment station to be conducted under the auspices of the Oregon Agricultural College co-operating with the U. S. Government Agricultural Department. Sites to consist of not less than 320 acres of land, said land to be located not under 800 feet nor over 1600 feet above sea level, to be comparatively level, deep soil, convenient to transportation and to have necessary water for domestic purposes. A cash rental proposition for a twenty-year term will be considered, as will one to rent for one year with privilege to purchase for cash.
