

**COLD AT MAYVILLE**  
28 Below last Monday. County Schools Closed in that Vicinity

The snow here has reached the depth of about a foot. The thermometer registered 28 below zero Monday night—the lowest point reached as yet.

School is closed here this week the snow being so deep that many of the pupils from the country cannot attend.

Miss Julia Thomas of Ajax is spending the week at the home of her parents here. Her school is closed for a few days on account of the bad weather.

Mr. and Mrs. Frank Jones of Pine Creek spent Sunday at the home of Mr. and Mrs. Grant on Beecher Flat.

Fred Ball and Ed Reynolds came in with a band of cattle Sunday evening. They are feeding them here this week until the weather moderates sufficiently to move them.

Otis Thornton returned from the timber the latter part of last week, where he has been for some time caring for A. M. Smith's sheep.

Archie Boyce was down from the Thirty-mile saw mill the first of the week.

Fred Brown of Buckhorn, was a business visitor here Tuesday.

**ITEMS OF LOCAL INTEREST**

Rev. T. F. Murphy wishes to announce that there will be services at the Congregational church on next Sunday at the usual hours.

George Berry who has had charge of the Arlington Lumber Co's interests in this city, left for his home in Portland on Wednesday morning. It is said that a new man is coming from northern California to take up the work of the company.

Among the new subscribers added during the past week are, Al Case of Haines, Ore., and Mrs. A. V. Halstead, while J. D. Estes and W. F. Tharp have been put on for another year.

Miss Emma Anderson is spending the week at home. On account of the severe weather the Clem schools are closed and at present Miss Anderson is out of a job.

A large number of Condon's young people had a merry time last Friday evening at the dance given at the Murtha & Monahan farm house on Rock Creek. The dance was given in the way of a housewarming in the residence the big sheepmen have just had completed. All those who enjoyed their hospitality report a good time and pronounced their hosts royal entertainers.

The dance which was to have been given on last Friday evening but was postponed on account of the dance given at the Murtha & Monahan ranch that evening, will be given tomorrow (Saturday) evening.

**A RELIGIOUS AUTHOR'S STATEMENT.**

For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. Condon Drug Co.

Many little lives have been saved by Foley's Honey and Tar, for coughs, colds, croup, and whooping cough. It is the only safe remedy for infants and children as it contains no opiates or other narcotic drugs, and children like Foley's Honey and Tar. Careful mothers keep a bottle in the house. Refuse substitutes. Condon Drug Co.

**MEN'S CLOTHES.**

Not What They Used to Be in the Days of Elizabeth.

Most men nowadays do not get much pleasure from dress and scarcely notice the changes of fashion in men's clothes. They are vaguely aware that a hat looks odd when its shape is old fashioned, and they accept the hat of the moment because they do not wish to look odd themselves. But this is a merely negative interest. They are also apt to be contemptuous of women's greater interest in the fashions, as if it were a mark of frivolity.

This is an ignorant mistake. Dress is or ought to be an art, and therefore, if only a minor art, it is a more serious matter than any of the games to which many men give so much time and pains. Besides, men have only become indifferent to their clothes in modern times.

In the heroic age of Elizabeth they made themselves as smart as peacocks. Great soldiers and poets then took pains to be in the height of the fashion, and fashions changed with some violence and rapidity. In the eighteenth century, too, which we do not think of as a time of effeminacy and when men were wanting neither in enterprise nor in seriousness, they were as splendid and extravagant in their dress as women.—London Times.

**WONDERS OF VELOCITY.**

A Piece of Thin Cardboard Will Cut Through Wood.

Velocity has a great deal to do with one substance's ability to break through another, and it is remarkable what can be accomplished by a comparatively soft substance against a much harder one when the former is given enough velocity. A bullet made of a tallow candle would smash flat if fired against a board from a toy gun, but when shot from an army rifle it would go right through the board. A stream of water has been known to have such swiftness of movement that a sword was broken in two when a strong man tried to cut it through. Cyclones have been known to drive such frail projectiles as straws well into a tree.

An interesting experiment showing what a soft substance can do may be performed by attaching a Bristol board disk to the motor of an electric fan and setting it to revolving at the fan's usual rate. If a piece of wood, such as a lead pencil, for example, be carefully applied to the edge of the revolving disk, the wood will very readily be cut through. Of course if the disk were to revolve slowly the wood would soon blunt its edge.—Pathfinder.

**Roaring Muscles.**

"If a writer wrote of roaring muscles, you would laugh at him. Joints crack, the stomach thunders, but muscles, you would say, don't roar. That is your mistake. They do."

The speaker, a physician, put his finger in his ear. "I hear a muscle roaring now," said he. "Try it, and you, too, will hear the sound. And to prove that it is the sound of a muscle, put a plug of wood in your ear instead, and you will hear nothing."

"Contracted muscles give out a roaring sound. Relaxed muscles are silent. This fact is of use in diagnosing certain diseases. The stethoscope makes the muscular roars audible, and those strange voices proclaim the presence of such diseases as tetanus, meningitis or strychnine poisoning, while silence on the muscles' part is, as to speak, a sullen admission of the presence in their midst of atrophy, degeneration, paralysis."—Buffalo Express.

**It is Well.**

It is well to carefully cultivate tastes. Ruskin says, "Tell me what you like and I will tell you what you are."

It is well to study human character. Bodensiedt says: "In the face of every human being his history stands plainly written; his innermost nature steps forth to the light. Yet they are the fewest who can read and understand."

It is well to "brush up against the world." Goethe says: "Talent forms itself in secret. Character is the great current of the world."

It is well to be never cast down. Elizabeth Barrett Browning says: Let no one till his death Be called unhappy. Measure not the work Until the day's out and the labor done.

**Who the Mound Builders Were.** Who were the mound builders of North America? The Rev. Dr. Bryce of Winnipeg has examined a large number of these interesting structures and is of the opinion that they were built by the Toltecs and mark the course of the Toltec immigration from the south along the Mississippi and Ohio to the great lakes and the St. Lawrence, along the Missouri and along the Mississippi proper to the Rainy and Red rivers. This would make the earliest mound date from about 1100 A. D.—Boston Herald.

**His Strong Point.**

"It is true," said a friend, "that you have amassed a great fortune. But your grammar?"

"Never mind the grammar," said Mr. Dustin Stax. "This is an era of specializations. I may be weak in some branches, but I'm an authority on the possessive case."—Washington Star.
