

O. R. & N. WINS IN DAMAGE SUIT

Case which has been in courts since 1905 brought to close in Condon Tuesday.

The case of The Arlington and Pacific Coast Railroad Co. vs. the O. R. & N. Co. for alleged infringement of their right-of-way between this place and Arlington, which has been in the courts since 1905, was brought to a close in Condon Tuesday noon. The trial was set to appear before Judge Bean in the court house Tuesday. The plaintiff failed to appear and the defendant asked for a trial by jury, which was granted, the jury consisting of Oscar Veatch, P. Dyer, Henry Wilkins and Otis Jarvis. The defense brought forth their witnesses who were examined and gave their testimony. The jury found a verdict for the defense and the court entered judgement against the plaintiff for costs. The case filed by the plaintiff was to the effect that they had made a survey for a proposed road between Arlington and Condon about March 1, 1903. An engineer named Beel, who had in his possession maps and original data covering a part of the right-of-way, skipped out and gave them to the O. R. & N. Co. with the result that they were enabled to build the road to Condon much easier than if the papers were not in their possession and that they confiscated the plaintiff's right-of-way to a great extent. Arthur C. Spencer appeared for the defense.

POPULAR YOUNG PEOPLE WED

Miss Ella Wallace and Durwell C. Leghorn united -- Robinson-Reynolds nuptials.

Miss Ella M. Wallace and Mr. Durwell C. Leghorn were married at the bride's home in north Condon, Wednesday, Jan. 19, at high noon, Rev. E. Curran, officiating. The beautiful ring ceremony was used which was interesting and impressive. Only the immediate relatives of the bride and groom were present. A large number of useful and beautiful presents were received by the young couple. At the close of the ceremony a delightful wedding dinner was served by the bride's mother which was enjoyed to the utmost.

The bride was charmingly arrayed in white silk while the groom appeared at his best in the usual black broadcloth. The bride is a daughter of Mr. and Mrs. E. A. Wallace, much respected citizens of Condon, and well known throughout the county. She is a young lady with a large circle of friends, won by her plain and unselfish ways. The groom, who is a young man, popular wherever he is known, may well be congratulated in securing such a bride. Mr. Leghorn owns a half interest in the pasture conducted at the corner of Main and Summit streets and enjoys a good business. They will make their home for a short time with Mr. and Mrs. Wallace. The Globe joins in extending hearty congratulations.

Miss Una Robinson and Mr. Fred Reynolds were married at Lone Rock Tuesday evening. The bride is the youngest daughter of Mr. and Mrs. R. G. Robinson, well known pioneers of the Lone Rock country. Mr. Reynolds is a stranger in this part of the country.

VAUDEVILLE BY ATHLETIC CLUB

Will take place January 31st--Club buys billiard table -- Will give reception.

The Condon Athletic Club will present a vaudeville in the Skating Rink Monday, Jan. 31st and their program consists of about a dozen numbers, each one of which will be a feature in itself.

There will be a forty-minute farce, the cast for which will be published in these columns next week; four athletic specialties, by the best athletes of the Club; three vocal solos rendered by Condon's best singers; a reading by Miss Fitzmaurice, who is a favorite with all Condon audiences; a piano solo by Miss Brown, and a sketch by Mr. and Mrs. William Gross, which promises to be very good as these young people rank high among the amateurs of Oregon and have won for themselves an enviable reputation. In fact, in every number the parts are to be taken by the best available talent the town affords, so the people who attend the performance are assured a pleasant evening's entertainment. And, incidentally, the proceeds will be added to the building fund. Popular prices, 25, 35, and 50 cents.

The entertainment committee consists of Fred A. Edwards to whose careful management a great deal of the success of the play "Uncle Rube" recently given by the Club, is attributed, Marcus Portwood, who is a prominent factor in the plays given in Condon during the past year, and Ray Tracy and Harry Fitzmaurice. Turn out and give the Club a boost.

At the regular meeting of the Board of Trustees last evening it was decided to buy the billiard table from the old commercial club who made them a very flattering offer, showing their good will and faith in the Club. It was also decided that it would be necessary to remodel the building to some extent in order to accommodate the table which work will be commenced at once. A small charge per game will be made to the players, and it is thought that in this way the table can be paid for in a much shorter time. The resignation from the Club of O. C. Veatch, who is soon to go to Fossil, was accepted although much regret was expressed at losing a member of Mr. Veatch's standing. The Entertainment committee was instructed to make arrangements for a reception to be given the members of the Club and their friends which will take place at the Clubhouse within a few weeks, it is thought on St. Valentine's day. The application of Walt Graves to become a member of the Club was favorably reported. The usual bills were allowed after which the Board adjourned until their next regular meeting.

Concerning the value of the Athletic Club to the town, Rev. J. P. O'Rourke, editor of the Catholic Admonisher, has the following to say in his last issue: "To much praise cannot be

For the past five years the eyes of the eastern people have been turned to the west. In no other locality have the people shown such a keen desire to come to a country where the climate is almost semi-tropical. The words of Horace Greeley "Go west young man and grow up with the country", is the byword of the people who desire to seek their fortunes in a place of plenty. A people that are looking for literature relating to the country which has set the hearts of all eastern men aglow; a country to which they desire to come in order to avoid the rigors of the severe winters, is their wish.

The West is on the tongue of nearly all eastern men. If they themselves have not seen it some of their friends have been here to see the wonderful opportunities which lie dormant to be taken up by the men who will cast their lot among us, and labor for the fruits which nature has lavished upon the western people so generously. They hear about
