Reports received from the representative business men and land owners of the different sections of the county show that they are thoroughly disgusted with the result of the mass meeting held in the Court House in this city last Friday evening. The lack of courtesy and fairness which was present at the meeting seems to be the cause of the feeling which exists. These people believe that the Booster Club, in turning the meeting over to the citizens for the purpose of producing harmony between the two factions that exist in this city in order to secure the O. R. N. plan of publicity for the county, did their part like men and it was certainly to be expected that the Booster Club should be given a representative on the Board of Directors of the new organization. This, however, was denied them and this caused the withdrawal of the Arlington and Mayville people. Those with whom we have had communication say that they shall be delighted to see the new organization meet with success in furnishing publicity to the county but they decidedly refuse to become affiliated with the Opportunity League or Association. That their opinions tally exactly with those of the Globe goes without saying. Nothing could please us more than to see the new organization bring many new people to the country for new people mean more business and we will certainly get our share.

Noteworthy contributions in the April number of the Physical Culture Magazine are "Noxious effects of the Social evil," "The Value of Play as a Tonic," "Fifty Meatless Recipes," and "The Teeth-How to Preserve Them," together with many other readable articles, and a series of menus of vegetable foods, with complete recipes for their preparation. "The Jungle's Aftermath," Upton Sinclair's sequel to his famous expose of Packing-town, also begins in this number.

We have called attention several times to the fact that all copy for changes of ads must be brought to this office not later than Tuesday of each week. This rule will hereafter be strictly enforced for the reason that ads brought in later than Tuesday cannot possibly receive the attention they should. Advertisers should set aside a period each week to attend to their advertising and this can be done early as well as late.

That James J. Hill will build an east and west line of railway across Central Oregon, from Ontario to Coos Bay, was stated on good authority during the past week. The projected line will connect with the Grand Trunk, the Hill road now being built up the Deschutes, and with the Oregon Electric in the Willamette Valley, believed to be another Hill property.

This will mean a gridiron of new railroads for Oregon during the coming few years that will bring about a development in this state never before approached. All Central Oregon needs is railroads; it has everything else but people and the railroads will bring them.

A community in this county was originally named Igo. But with the residents it is rather I stay.

"Pass the pork," says an exchange. Many people will, if the price continues to remain where it now is.

Portland will have another great flour mill soon. Balfour Guthrie & Co., wheat and flour exporters, have completed plans for erecting a big mill to cost about \$250,000.

In the early days the frontier stockman scoffed at the wheat-raiser. When a few "newcomers" undertook to fence up some of the range in this county and to attempt farming they were laughed at with scorn. The old timers did not think wheat-raising would pay and they said the range would be ruined. Now the wheat barons, feudal successors of the old cattle kings, laugh at the irrigationists and at the man who attempts diversified farming. Their arguments are in a class with those used by the stockmen against the pioneer wheatraisers. Irrigation won't do. Neither will intensified farming pay in the dry land section. The wheat baron does not want to see the big grain ranches broken up. But nature will take its course in spite of opposition. It always does. Before many years there will be a higher state of agriculture in Gilliam County than prevails at the present time.

Cattle and hogs have made new records in the Portland livestock market during the past week. Hogs sold at the remarkable price of \$11.50 per 100 lbs live weight, and steers of the best grade brought \$6.75 per 100 pounds. Mutton also attained a record, a lot of good grade lambs going at \$12 a 100 pounds, an unusual price for any season.

An interurban service that is designed to meet the needs of the cities of the state has just been announced by the Harriman lines. A gasoline motor car will be put in service on the main line between Pendleton and Umatilla on the O. R. N. within the coming week.

These motor cars are designed to handle local business in the territory they cover and serve the different communities much in the same way as interurban electric trains. They have been found very convenient wherever tried and will no doubt aid the development of the districts served to a great extent.

## AJAX ITEMS

Mr. and Mrs. Farrar visited in Ajax last Sunday.

Season.

## SEE HOLT'S KOST KUTTING BABIES.

The Normal School question is fairly before the voters by the Initiative Bill for Monmouth framed by her Alumni. This separates it wholly from politics and gives the voters a fair chance to express their choice. Schools are a necessity - we must educate the boys and girls - and we must have teachers. The Normal School is the place to train and prepare these. Vote, Yes, for Monmouth.

J. B. V. Butler, Sec. Com.
