In view of the fact that next Monday, April 11, is the date for the election of officers to govern our city, it might be well to mention a few of the candidates whose names are before the people. The name of Dr. J. F. Wood has been brought before the people by a petition as an independent candidate for mayor. Dr. Wood has practiced his profession in this city for nine years and during that time has held many positions of trust, among them being a seat on the council, where, although in the minority, he has always stood for good government and all things which pertained to the betterment of the city. Condon needs a man of this kind to fill the position for which he is a candidate. His record in all matters speaks for itself.

Dr. B. F. Butler, H. A. Thiessen and J. D. Estes have been nominated for councilmen by petition and as everyone knows are men of sterling qualities and well fitted for the positions to which they aspire. The question at issue is one of good clean, honest government and every good citizen of the city should come to the polls on Monday with this point in mind; of electing men to fill these offices who will give the taxpayers an administration that will be a credit to the city.

There is no doubt but what some of the big interests in the United States are contributing, or have promised to contribute, large sums of money to break down the initiative and referendum in Oregon. There are indications pointing that way that will be exposed in time. Perhaps too late. There are also indications pointing to money being contributed to break up labor organization, set the Grangers by the ears and prevent the formation of the Farmers Union. The people of Oregon are reaching for the seats of power, and the tax-dodging public-grafting corporations are going to try to stamp out the blaze before it becomes a conflagration extending over the country.

A topic that is being discussed daily on the streets of the city is the deplorable condition of Main Street at the present time and the influence this condition might have upon anyone coming here with the view of locating and making Condon their home. It is not at all probable that the view presented would tend toward helping their decision to locate.

It is expected to complete the jetty at the mouth of the Columbia River this season. Work has already started on extending it further and the dredge Chinook will operate on the bar during the summer. By the time work stops in November, it is expected to have a depth of 30 feet on the bar at low tide.

The sale of the big land grant of the Willamette Valley & Cascade Mountain Road company during the week to capitalists said to represent the Hill interests indicates to many that the reported Pacific Coast outlet for the Burlington will become a reality. It is believed Hill will build west

from Billings, the present terminus, to Boise and thence westward through Ontario and across Oregon to Coos Bay. The purchase price of this big land grant will run up into millions. If its purchase by Hill can be confirmed, and this railway built, it will mean a great development for Oregon for it will open up the most isolated sections to settlement.

The bill now in Congress providing for the issue of \$30,000,000 in certificates to raise money for completing the projects of the Reclamation Service which are now held up for want of money, is being watched with close attention by the people of Oregon, Washington and Idaho, because much of the money, if Congress consents to raise it, will be spent in these three states. The bill has already passed the Senate and is in the hands of the lower house, which will probably act upon it within a month.

The announcement of a Boston dermatologist that motoring causes baldness will neither discourage the motorist nor cheer the fellow whose locks are thinning, although he has walked up hill and carried burdens all of his life.

The Normal School question is fairly before the voters by the Initiative Bill for Monmouth framed by her Alumni. This separates it wholly from politics and gives the voters a fair chance to express their choice. Schools are a necessity - we must educate the boys and girls - and we must have teachers. The Normal School is the place to train and prepare these. Vote, Yes, for Monmouth.
