VOL. XX

CONDON, OREGON, FRIDAY, JUNE, 17, 1910.

NO. 12

GILLIAM PEOPLE QUIETLY MARRIED

Both Ceremonies Performed by E. Wheir.

CUPID AGAIN GETS BUSY

Wallace-Hire; Lewis-Andrews - Both Couples Reside in County.

A pretty home wedding was solemnized at the home on Rock Creek of the bride's parents, Mr. and Mrs. E. Hire, at four o'clock Sunday afternoon. The contracting parties were Miss Ethel Hire and Ed. Wallace. Justice Wheir pronounced the ceremony which united the lives of these estimable young people of this city. The wedding was a quiet one, witnessed only by the immediate relatives of the bride and groom and a few intimate friends. The bride was becomingly dressed in white and the groom in the usual manner.

The ceremony was followed by congratulations with merry jest and cheery conversation. An elegant lunch was served and after expressing sincere wishes for the happiness of the newly wedded couple the guests departed.

It is a pleasure to chronicle the marriage of such worthy young people and this paper extends to them its warmest congratulations.

Chas. A. Lewis and Beulah C. Andrews, both of Mikkalo, were quietly married in the Oregon Hotel parlors in this city at 7 o'clock Wednesday evening, Justice Wheir performing the ceremony.

The bride is a young lady admirably fitted to be a helpmate to the husband she has chosen.

The groom is a prominent farmer of the northern part of the county and is well and favorably known throughout this vicinity.

Mr. and Mrs. Lewis left yesterday morning for The Dalles on a short honeymoon trip after which they will take up their residence on the groom's farm near Mikkalo. The Globe joins in extending best wishes.

The Condon Amusement Co. will give the first of their social dances this evening. The Wheat City Orchestra has been engaged to furnish the music and dancing will commence promptly at nine o'clock lasting until twelve. The price will be only 50 cents. This company expects to give a social dance of this nature every week. A pleasant time is assured.

The musicale and moving picture entertainment which was given last Saturday evening by the Condon Amusement Company as the formal opening of their new theatre was a decided success in more ways than one. Every seat in the house was occupied and standing room was at premium. The musical numbers were well received especially the vocal solos by Mrs. D.H. Cottmire and Miss Kittie Nickolson. The other musical numbers were a mandolin solo by J.E. Schroeder, cornet duet by Clarke and Hartshorn and two selections by the Wheat City Orchestra. The films shown were also very good.

MARCUS PORTWOOD

The sad news was flashed over the wire to this city yesterday of the death of Mark Portwood at Chehalis, Wash. by an injury received. It is impossible to state full particulars this week.

North Portland Stock Market Receipts at this market for the week ending today were: cattle, 2054; Calves, 395; Hogs, 1250; Sheep, 6183; Horses and mules, 47.

The cattle market for the week has been steady to strong, with the recovery of from 15c to 25c from the break of last week. The sheep market has been from strong to higher, while the hog market assumed a steady position after the decline of the first part of the week. The demand for Cattle and Sheep has been brisk.

Happenings of interest to the livestock trade have been the retirement of Mr. Wm. Shepherd, a long time cattle buyer at Portland, to look after his own interests. The establishment of a horse and mule market is also worthy of note, and horse and mule raisers of the Pacific Northwest can take advantage of this opportunity of disposing of their surplus draft animals.

The beautiful Memorial Service of the I. O. O. F. and Rebekah lodges was held in the Congregational Church last Sunday. The Church was prettily decorated with flowers. In the afternoon many of the graves in the cemetery were decorated by the lodge members.

LABOR SCARCE IN NORTHWEST

The wheat raisers and orchardists throughout this section of the state are again confronted by the problem of obtaining sufficient help to take care of and harvest their crops. Not only does this apply to this section but also to the northwest in general. Employment agencies in Spokane alone have orders for more than 10,000 men and thus estimating the amount of orders which must be placed with employment agencies of the other large cities of the northwest, places the number of men wanted at enormous figures. The majority of these orders comes from the grain and fruit districts of Eastern Oregon and Washington, North and Central Idaho, and Western Montana, in which territories, according to the state inspectors, the crops this season will be larger than at any previous time in the history of the country. The Yakima Valley alone wants 1500 to handle the peach crop which promises to be especially abundant.

It is estimated that the wheat crop alone in the four states will be fully 65,000,000 bushels this season, and to harvest this the services of more than 40,000 men will be required. The farmers of this section say that although early in the season it is already almost impossible to secure help although large wages are being paid.

Lillian McDonald who, it will be remembered by many, played the leading part in East Lynne while in this city about five years ago, is playing the lead and managing the company which is to present "The Girl From the Golden West" in this city next Wednesday evening.

CONVENTION WELL ATTENDED

Nearly all Members of Unions Present.

COUNTY UNION ORGANIZED

County Officers Elected--May Keep Representative on Board of Trade.

The official call for a County Convention of the Farmer's Educational and Co-operative Union of America was responded to quite loyally. Nearly all of the members of the five local unions attended the convention held in this city last Saturday. It was decided to join the five unions into a county union and the following county officers were elected; Wm. Wehrli, Pres; H. S. Edwards, Vice-Pres; P.H. Stephenson, Sec. and Treas; Jacob Larch of Clem, Geo. McLaughlin of Arlington, H. D. Randall and W. S. Wade of Olex, Chas. Lillie and Geo. B. Dukek of Mayville, W. J. Mariner of Blalock and E. C. Rogers of this city were elected as directors. The matter of keeping a representative on the Board of Trade in Portland to keep the farmers in touch daily with the prices of grain was quite generally and favorably discussed. The local union is buying a large quantity of wood and coal to be delivered next fall.

Livestock shipments to the Portland markets for the month of May are far ahead of the same statistics for May of last year, showing the growing importance of that market. Particularly is a big gain shown in hogs, which is indeed gratifying. A total of 515 cars of livestock of all kinds were received at the stockyards during May of this year. The increase in hogs received was over 7000 head. The O. R. & N. has decided to place in commission a regular stock train service, operating twice a week from Huntington to Portland and way points. This will begin June 21 and will be a great convenience to the stock-raiser.

Many of the farmers in this vicinity have been busy cutting rye for hay during the past week. The stand is, in general, most excellent.

Restaurant for sale
READY TO RUN. Splendid opportunity for the right party. Call or address,

SUNDAY'S GAME WON BY CONDON

C. A. C. Takes Another Game From Fossil

MAKES THREE OUT OF FOUR

Almost Errorless Game by Club Plays Heppner here Sunday, June 26th.

The Condon Ateletic Club team and the Fossil team met on the local diamond last Sunday for the fourth game of the season between these teams. The game was close and highly interesting up to the sixth inning when a batting rally on the part of the Club team assisted by numerous errors by the Fossil players, put the former well in the lead and when the game ended the score stood 10 to 3 with the big end hanging to the belt of the Club team. The Club team played an almost errorless game in the field and while their work with the stick is still not up to the standard it shows much improvement. Burns was easily the batting hero of the day, getting three long, safe drives out of four times up. Chas. Fitzmaurice's work behind the bat was another feature in spite of his injured finger. "Shang" Laughrige demonstrated his ability to keep his side of the garden clean of hits. Ashenfelter handled the horsehide for the visitors and Hartshorn was on the mound for the Club team. The attendance was not as large as at the former games but those present displayed their loyalty.

The club team will play the Heppner team on the local diamond a week from next Sunday, June 26. On the following Sunday the Heppner team will play a return game on the local diamond. Everyone should make it a point to be present at the game on June 26.

A girl was born to Mr. and Mrs. G. M. Blakely on Monday night.

The contract for installing the meters on the water system of this city was let by Mayor Wood on Tuesday to Jamieson & Marshall of this city. Four bids were handed in but one was afterwards withdrawn. Two hundred meters are to be installed and the price in the contract is \$2.75 each. The work has already been started and will be hurried to early completion.

Plumes curled and cleaned and old flowers and straws made to look like new at Miss Pittman's Millinery Parlors.

MRS. G. H. McVICKER

Mrs. Glenn H. McVicker passed over the last hill of life's journey to the beautiful Valley where all is rest and peace, on Monday, June 13, 1910, at Excelsior Springs, Missouri, after an illness of three months duration. Janie Lousie Hartshorn was born in Wright County, Iowa in 1889, came to this city with her parents, Mr. and Mrs. S. B. Hartshorn, in 1902 and resided here until March, 1908, when, with her parents, she went to Lamoni, Iowa. She was married on Dec. 25, 1909 to Glenn H. McVicker whom she leaves, with her father, mother, two sisters and three brothers to mourn her loss.

Her life was gentle but like the still waters it was deep. In her heart of hearts she carried those she loved, and her hand was never weary, her step never failed in ministering to, caring for, waiting upon those who were in any way dependent upon her. She was a faithful member of the Latter Day Saints Church, not only to her Church but just as faithful in believing it to be her duty as a Christian to do the will of the Master at all times. Gently, almost unconsciously, she helped those coming in contact with her to strive for, if not to attain, the realization of her own high ideal. The loss of the strong influence of this loving heart which gave of its gifts so generously will long be felt in her home and among those who knew her.

WILL CONTROL GRAIN OUTPUT

Preliminaries have been completed for the consummation of a gigantic plan in which the grain growers of eastern Oregon and Washington, north and central Idaho, and western Montana are greatly interested and which is expected to be of great benefit to them by placing them in a position to sell their wheat at the greatest profit by eliminating the middlemen.

At a meeting held last week the Farmers' Warehouse Association of the Inland Empire, controlling approximately 40 per cent of the 60,000,000 bushels of wheat annually harvested in the district referred to, was formally organized under the direction of officers of the Farmers' Educational and Co-operative Union of America. The immediate object of the plan is to pool the grain grown in this part of the northwest and sell it in lots of 100,000 bushels and upward direct to millers and exporters, charging the growers not more than one cent a bushel for handling and marketing the grain.

Twenty-two applications for the position of principal of the Gilliam County High School have been received by County Superintendent, J. C. Sturgill. They come from all over the United States but the majority are from the Pacific Northwest States. The Board of Directors will meet on July 6th to select one of these applicants. Miss Bertha Kretschmar has sent in her resignation thus leaving another vacancy. The High School will have an entirely new corps of instructors for the coming school year.

O.R.&N. OFFICIALS VIEW COUNTRY

May Extend Condon Branch to Fossil.

ARE FAVORABLY IMPRESSED

J. P. O'Brien, R. B. Miller, G.W. Buck and F.R. Dunn present.

That the railroad committee, which was appointed some time ago to confer with the O.R.&N. officials with a view of interesting them in the building of a railroad to Fossil, was successful is shown by the fact that Geo. W. Buck of the O. R. N. engineering department and F. K. Dunn of the traffic department arrived in this city last Friday evening and in company with Geo. B. Dukek went over the country tributary to the proposed extension of the Condon-Arlington branch. They expressed themselves as being favorably impressed and said that while the extension would be an expensive one they would recommend it. General Manager O'Brien and R. B. Miller, head of the traffic department arrived in this city early yesterday morning on a special. They brought a large auto with them and started in spite of the mud, to investigate the country south of this city to see if in their estimation the extension would pay.

H. W. PAULING

H. W. Pauling died last Saturday, morning, June 11, 1910 at his home in Portland. The cause of his death was gastritis and although he had not been feeling especially well for some time, his condition was not considered serious until just a very few hours before the end. Mr. Pauling came to this city eleven years ago and engaged in the drug business with Capt. Whistler. He was afterward engaged in the drug and jewelry business with R. H. Robinson and later held the position of manager of the Red Cross Drug Co. He disposed of his interests in this company about four months ago and went to Portland where he again engaged in the drug business and lived until his death. The funeral services and interment were held in Oswego Oregon where his parents reside. The church where the services were held was completely filled with the large concourse of bereaved relatives and sorrowing friends who thus paid their last tribute to the deceased. He leaves to mourn his loss a wife and and three children and a father and mother. This paper joins with his many friends in this vicinity in extending heartfelt sympathy to his family in their sad bereavement.

Mr. and Mrs. J. C. Sturgill left Tuesday for Baker City where they will spend the summer months. Mr. Sturgill will return about July 1st to assist in the celebration and attend the meeting of the board of Directors of the Gilliam County High School and will then go to Baker City to spend his vacation.

DIFFERENT FROM ALL OTHERS

The World

THE GLOBE GRAIN SEPARATOR

Is our field

No Power -- Self-Operating.

The only machine that will absolutely clean your grain without power to run it. Takes only one man to run it. Cleans by gravitation

This machine is being demonstrated at Mt. Hood Saloon Bldg. by D. GRIMM of The Globe Grain Separator Co. Inc.
