Considerable agitation comes from the columns of the machine organs throughout the state in regard to the assembly plan. We can see nothing in this movement but an attempt to carry the people of the state back to the old-time boss style, the political convention, which has done more towards the upbuilding of political machines and depriving the people of good government than all the other evils of corrupt politics combined. In our estimation the assembly plan can further the interests of only one class of people, the machine politicians, who understand all the delicate intricacies of wire pulling and all the corrupt methods of old, who can smother their consciences, bow to the will of their superiors and destroy the will of the people. One machine organ has said, "The primary system destroys party government." If "party government" means the way parties were governed in this state before the primary system came into vogue, we can say that in destroying party government the primary system is gathering to itself more laurels and may the destruction be rapid and complete. One or two of the old-time "steeped in sin" politicians are opposing the assembly scheme but we imagine that they are opposing it not because they deem it improper but because they see that it cannot win. They are astute enough to know that the people of Oregon consider their rights thoroughly safeguarded under the primary system and will not again jeopardize them by descending into the old rut of machine rule.

There is probably no man engaged in the newspaper business in this state, who is not acquainted with a man whose excuse for discontinuing his subscription is that he already "has more papers than he can read." It's only an excuse offered to ameliorate the presumed lacerated condition of the editor's feelings. It has no such effect, for in the first place an editor never worries over the loss of a subscriber except when he leaves the country without paying up arrearages. But why not be truthful and say to the honest newspaper man just what you feel in your heart. Go into his den, ask him how much you owe, pay the delinquency, and tell him frankly that you don't want his disreputable, blackguard sheet any longer. Say to him in a sorrowful tone of voice that you deeply regret his inability to publish a newspaper worthy the name and advise him to sell his plant to some man with a thimble full of brains and seek some occupation which does not require much wear or tear of the mind. Do this and then you can go away with the comforting assurance that the editor respects you for your candor and will cherish no hard feelings because you choose to borrow his paper instead of buying it.

By the end of the present year, it is promised that the most remote districts of Oregon will be served by railroad transportation. Central Oregon will have two main lines, the Oregon Trunk and the Deschutes Railroad and the building of these roads is of course the prime achievement of the year in transportation. In

addition, the Harriman line to Tillamook will be completed and much progress will have been made by the end of the year on the Natron-Klamath road. This year the cost of contracts for new railway lines and betterments in this state will aggregate about \$30,000,000. Many other important new projects will undoubtedly be mapped out and started before 1911.

Portland will get the 47th annual convention of the National Wool Growers' Association, the dates for which have just been fixed for January 5, 6, and 7, 1911. On these dates there will be thousands of delegates there from the wool growing states and the convention will be of wide interest to stockmen. In connection with the gathering there will be a big sheep show that is expected to draw many exhibits from the farms of Oregon sheep raisers, and many blooded sheep will be brought here from other parts of the country. Preliminary plans are now being made for the gathering, various committees being already at work.

If Oregon gets the assembly and its candidates show any strength, it will not come from Gilliam County. Here the assembly is a joke, notwithstanding any statements to the contrary. Any assembly man or body of assembly men selected from this county to represent it at the state assembly probably can deliver the votes of a handful of politicians but they cannot deliver the votes of the people. If you doubt it the result of the election next November will entirely convince you.

You can get any magazine printed at astonishingly low rates if subscribed for in connection with the Globe.
