The Long Creek Ranger points out that in Grant County much of the land once considered worthless for farming is now being made to produce good crops by outsiders who have come in and gone to work. The fact is that the idle land held by speculators in Grant County, notoriously under-assessed, does much to discourage actual settlers.

We would advise you to write or call and see him at once as he is finishing up all the wells he has in sight. Mr. Wilburn says he is receiving inquiries almost every day from other localities and they want him to move right away and go to work, so have him do the work before it is too late.

A Popular Summer Resort.

The fine weather prevailing on the North Beach, is bringing hosts of visitors to the Ocean shore, intent on securing rest and a good coat of tan.

The outlook is particularly bright for a remarkable busy season this summer, the number of visitors at this time being far greater than ever before at the same time of the year.

The march of progress is evident throughout the entire length of the beach, and development being assured, prosperity is but a matter of course. Work on the Automobile Boulevard is progressing very rapidly, beach houses by the score are being erected, and new rooming houses and old are being rapidly put into shape to take care of the hordes of summer transients which will soon be down upon us.

The North Beach Push Club with its combined effort, shouldering the Wheel of Progress, has awakened an era of activity which will undoubtedly secure the proper recognition of the unsurpassed advantages of the North Beach for enjoyable outings, and, at the same time, all the comforts of home.

Negotiations are now pending with Portland capitalists for the installation of a water system to supply the beach and surrounding countryside with fine mountain water. With the culmination of this project, one of the obstacles to an otherwise incomparable locality is obliterated.
