Women Appreciate the Brilliant Tungsten Lamp

because it affords them infinitely better light for making their toilet than the ordinary carbon incandescent. Its metal filament radiates two and a half times as much light with the same amount of current. And the quality of it is much better. Its brilliancy is maintained without deterioration during the entire life of the lamp.

Every woman should try one in her own house. It costs but a few cents and will save her money. Ask us to show you the new GE 40-watt lamp.
