THE GILLIAM COUNTY "BOOSTER"

VOL. XX

CONDON, OREGON, FRIDAY, AUGUST 26, 1910.

NO. 21

COURT IS ASKED FOR INJUNCTION TO STOP PUBLICATION OF ASSEMBLY ARGUMENT

Would Give Assembly Candidates Unfair Advantage - - Unlawful Says Complaint.

Complaints have been filed in the circuit court of Marion county asking for a perpetual injunction restraining Secretary of State Frank W. Benson and State Printer Willis S. Duniway, from printing the campaign argument prepared by the Republican state central committee, M. C. George, its chairman, and E. V. Littlefield, its secretary, indorsing the "assembly ticket" as the official choice of the Republican party of the state.

The suit is based on the ground that the action of the state central committee and its officials is in violation of the election law of the state, is misleading to the voters of the state, is a conspiracy entered into between the officers of the state central committee, is unfair to other candidates, not so indorsed, and would through misrepresentation, work injury to all Republican candidates throughout the state not so indorsed by the state central committee.

The complaint alleges as follows: "That certain members of the Republican state central committee conspired and confederated together for the purpose of securing an advantage on the part of said assembly candidates, over the candidates who are not assembly candidates, by preparing certain arguments and statements in favor of said assembly candidates and filing the same with the secretary of state, with the request that they be published as required in said section 2, of said act passed by the legislature in 1909, in what might be termed the 'political pamphlet.'"

It is further shown: "That in truth and in fact said assembly was unlawful, and not authorized by any law of the state of Oregon, and the attempt by the Republican state central committee to make it appear that said assembly candidates are the choice of the Republican party of the state of Oregon and of the county of Multnomah is greatly to the detriment and injury of each of the candidates, excepting said assembly candidates, and to the prejudice of their rights, and to the right of this plaintiff."

Fruit stains on linen may be removed by pouring boiling water thru them, says The Woman's Home Companion. Stretch the spotted part over a bowl and pour the boiling water on the stain. It may be necessary to repeat the treatment several times in order to remove the stain entirely. Tea and coffee stains may be eradicated by the same method. The sooner they are taken out, the better. Wine stains may also be removed by the hot water applied in the same manner.

Wilson. Mr. Mowery was here ostensibly for the purpose of interviewing some of the voters of the county to ascertain if possible what his chances would be in the coming primary election. He also left petitions here to be circulated. Word comes to the Globe that upon his return, Mr. Mowery imparted to his followers the knowledge that the voters of Gilliam County would stand pat for him. Evidently Mr. Mowery did not interview many voters in this county. That the voters of Sherman county may understand the sentiment as it is, the Globe wishes to say that in the coming elections the voters of this county and also Wheeler will go to the polls and mark their ballots almost unanimously for D. R. Parker, a man who is known to everyone as being absolutely qualified and the logical man for the office.

MILLIONS LOST YEARLY

SENSATIONAL STORY TOLD BY CONGRESSMAN MURDOCK

People Have Annually Paid Millions To The Railroads.

Last Saturday at Spokane, Wn., Congressman Murdock created a sensation by stating that in the past thirty-four years \$70,000,000 of the people's money was given to the railroads for no service. A donation of the people's money to the corporations. Every insurgent in the country today is fighting for a reform which will insure fair play to the people. They have and now do oppose every law and measure which seeks to take away the rights and hard-earned money of the masses. This is what has caused the split in the Republican party.

In this mail grab, Murdock showed that thirty years ago it was the practice to haul mail only six days in the week. When the U. S. government en-

deavored to reduce the cost of transporting the mails, the government ordered every sack of mail weighed for a given length of time. After the total weights were sent in the sum total should have been divided by seven but as the law thirty years ago said six days mail each week, which excluded Sunday, was a week's mail, the total weight was divided by six instead of seven and this Murdock has figured out to mean a loss of \$70,000,000 to the people of the United States. The people are becoming aware of the just cause for which the insurgents are fighting is evident by the great insurgency wave which is sweeping over the country each day gathering to itself hosts of followers.

MAYVILLE FAIR PROMISES TO BE SUCCESS IN EVERY WAY

The Mayville fair to be held in October this year promises to be far better than any preceding fair in this county and to be equal if not better than any fair of this kind throughout the state. The special efforts that have been made by the officers and directors are bringing results even beyond the highest expectations. The premium lists have been received and are being sent out. They show little difference from last years premiums except that they cover much larger scope. Anyone wishing one of these premium lists can get it by writing to John Stewart, Fossil, C. J.

Quinn at Mayville or by calling at this office. The fair is to be held on the grounds that were recently leased south of town. Horse and cattle sheds, hogpens and other buildings have been erected and a large poultry house is now nearing completion. The fruit display this year promises to be an especially fine one. Plenty of water will be had this year and many other accommodations that were lacking heretofore. This agricultural fair should appeal to the farmers of Gilliam County with more than common interest because it is a home fair and conducted by home people.
