## RETURN HOME THROUGH THE SUNNY SOUTH

When you arrange your eastern trip be sure to include the Sunset Route through New Orleans, El Paso, Los Angeles and San Francisco for return. It is a splendid educational journey and at this time of the year especially delightful because so warm and comfortable. Every mile is through the sunny south-land—the rice and cotton fields of Louisiana and Texas, the vast mirage mesas of New Mexico and Arizona, now spread with bright green, the orange groves and semi-tropic charm of California, miles and miles along the ocean shore, and several of the most interesting cities on the continent. Ask your local agent about it.

## RAIL DEATHS NONE

Harriman Lines Carry 49,491,000 Persons in Safety.

## BLOCK SIGNAL SYSTEM TELLING

Report for 1910 Received by Local Agents Show No Fatalities. 17,960 Miles Covered. Anti-Accident Crusade Effective.

Installation of safety devices and the block signal system are cited for the record of the Harriman railroads in carrying 49,491,000 passengers in 1910 without sacrificing a single life.

The report was compiled in the office of Julius Kruttschnitt, director of maintenance and operation, Chicago. It covers the business of the Union Pacific, Southern Pacific and affiliated roads, a total of 17,960 miles. The total number of passengers carried on a mile basis is 3,000,000,000.

The Harriman system carried 10 per cent of the estimated 1910 passenger traffic. The figures of most of the other railroads have not yet been compiled by the government, but in 1909 the number of passengers carried was 26,000,000,000. The figures for 1910, it is said, will not exceed a billion more.

Many other railroads have gone through a year without a fatality to any of its passengers but it is said that no system has made this record for such a large total of passengers.

Results on the Harriman lines are ascribed to a campaign waged by the management for years to reduce accidents. The Harriman system now has more miles of automatic block system protection than any other system in the world. Mr. Kruttschnitt has directed special attention to the accident problem, and began several years ago to bring about a reduction by giving complete publicity to all forms of accidents and their investigation, which, it is believed, spurred officers and employees to greater efforts to safeguard lives.

In 1903-1904 the number of accidents on the Union Pacific was 20 for every 1,000,000 locomotive miles. On the Pacific system of the Southern Pacific the number of accidents per 1,000,000 locomotive miles was reduced from 29.5 to 10.5 in the same time.

## COUNTY COURT PROCEEDINGS
