THE OFFICIAL PAPER FOR GILLIAM COUNTY

Learn to greet your friends with a smile; they carry too many frowns in their own hearts to be bothered with yours.—Ayer.

It is a calamitous and incontrovertible fact that when any person or set of persons take the initiative in a move which tends toward the good of this city and of the general public, should that move be it ever so meritorious, happen to conflict with the interests of any person or set of persons, an immediate howl of "factionalism" ascends. This perverted idea has done more harm to the city of Condon than all other things, still there are a few people here who cling to their ancient opinions. On last Saturday we overheard, quite by accident we presume, two persons talking in regard to the article on the distillate question which appeared in our last issue. One contended that this question was "no business of the Globe's anyway." The other, while conceding that it might possibly be some of our business, said that it was nothing but factionalism. In the first it is our privilege as a taxpayer to give our opinion in regard to this question and it is also the privilege and duty of any newspaper which has the welfare of the taxpayers at heart to expose any and all things that the taxpayers have a right to know for it is these taxpayers that make it possible for a newspaper to exist. Furthermore the setting forth of our opinion in regard to the distillate question is not factionalism. The fact that the city is now and has in the past been paying an exorbitant price for distillate and thus getting deeper in the mire each year on account of the entirely unnecessary expense would be exposed just as quickly were our closest friend the largest stockholder in the company which has been selling distillate to the city.

The Condon Electric Co. wants to lease its plant to the city of Condon for 6 per cent. on a valuation of \$22,500. From all the figures we can obtain on short notice, we cannot understand how the value of the plant can amount to that figure. Our estimate on the cost of the plant are as follows:

50 horse-power engine	\$2500.00
25 horse-power engine	1500.00
Installation of same	500.00
Building for same	500.00
Shafting and belting	1000.00
Dynamo	2000.00
100 poles and erection	500.00
Wire and installation	1500.00
Distillate tank and lot	750.00
	10750.00

These figures are all very liberal estimates with the possible exception of the distillate tank which might possibly have cost a few dollars more than we have figured. This leaves a balance of \$11,750 for which we can show nothing and the above estimates are on the cost of new machinery and materials, not allowing anything for deterioration in value, such as wear and tear on the machinery and the exposure of the wires to all kinds of weather. Six per cent. on \$11,750. would amount to \$705

per year but even this would be cheaper than buying distillate at the present rates.

In regard to a mass meeting to settle the distillate question we wish to say that should a meeting of this nature be held the only way to conduct it with any degree of fairness would be to let each man vote according to the taxes he pays. Otherwise many would vote who pay no taxes at all and in leaving the question to the taxpayers it naturally follows that nobody should have a voice but those who pay taxes and these in accordance with the amount they pay.

Some very embarrassing questions are being asked of the men high up these days. The president of the steel trust is to be asked why his company sells rails cheaper abroad than at home. It is so impudent for congress to interfere thusly with one's private business.

Lorimer hustled from Chicago to Washington to vote against election of senators by the people. We take it that he has no use for "the people" except it be those who are ready to "chip in" when someone is to be carried over.

Webster says a "faction" is a combination or clique of any kind, acting for their own interests, especially if greedy, clamorous, and reckless of common good.

M. Manning, the wool buyer, has purchased the Butte Creek Company, the Wm. Rettie and the F. F. Knox clips at 14¢ cents per pound. He has also purchased several other clips at lower prices, the lowest price paid being 10¢ cents.

A. S. Rice returned on Wednesday from Portland where he had been visiting for several weeks.

Mrs. A. Bosquet arrived in this city the latter part of last week from her home in St. Paul to visit for several weeks with her parents and other relatives in this city and vicinity.

Miss Alberta Hadley who appeared at the American Theatre on Saturday and Sunday nights left on Wednesday morning for Portland.
