"It Could Not Suit Me Better If it Had Been Built to Order for Me"

This is a common expression where the Royal Standard Typewriter is used. Court Reporters, Telegraph Operators and Expert Stenographers in all lines of business find in the Royal those "built-to-order" qualities that represent to them the ideal writing machine. You will say the same when you have become the owner of a

\$65.

LAWN FETE SUNDAY.

A very enjoyable evening was by those who attended the lawn fete given by Mr. and Mrs. Edward Dunn at their home Sunday, July 16th. The lawn was decorated with Japanese lanterns and presented a very pretty appearance. About sixty persons were present and took part in games of various kinds. Dainty refreshments were served and an excellent program, consisting of vocal and instrumental music was rendered. The crowd went home about 11:30 and all declared they had enjoyed themselves immensely and extended their thanks to Mrs. Dunn whom they decided was a most royal entertainer.

REASON FOR CROP SHORTAGE

In the last Sunday Journal, an article by Hyman H. Cohen places Gilliam County's wheat crop at 1,000,000 bushels, but this estimate is probably a little high. Mr. Cohen says "Possibly one of the greatest helps toward making this present crop of wheat the greatest ever grown in the Pacific northwest is the unusual care taken by the growers in the better districts. Had this same care been taken in the lighter land sections of Oregon, the result would have been a surprise in yield.

In this connection it should be stated that the growers of Gilliam and Morrow counties are much to blame for the smallness of their crops. Very shallow cultivation has been continued in those districts although some of the farmers within the borders are changing their tactics and are plowing deep to conserve every drop of moisture that the ground receives.

The single planting of wheat and expecting to harvest three crops is another drawback to the light land sections of Oregon and helps to pull down the average yield. This has been demonstrated in Gilliam county where one field of volunteer wheat produced six bushels per acre while one alongside - right over the fence - produced an average of 15 bushels. The difference was but the matter of cultivation and seeding."

Watch Fob Lost.

Fob made of two ribbons and a gold clasp with ivory horse head attached. Finder will return to this office and receive suitable reward.

D. Tierney left on Saturday last for Spokane to visit over Sunday with his family, who have been there for a month. He returned on Monday.

G. E. Townsend, the hide and wool buyer, formerly a resident of this city, is able to be around after several weeks confinement in a Pendleton hospital with typhoid fever.
