OREGON PIONEER DIES SUDDENLY AT TROUT LAKE

Mrs. Elizabeth L. Lord suddenly stricken at her summer home at Trout Lake Wednesday. Was Vice-President of Oregon Woman Suffrage League.

Mrs. Elizabeth Lord, wife of W. Lord, died at her summer home at Trout Lake Wednesday, the immediate cause of death being heart failure. Mrs. Lord was one of the oldest residents of Oregon, was vice-president of the Oregon Woman Suffrage League and closely identified with other prominent organizations. She is survived by her husband and one daughter. The funeral will be held at The Dalles this afternoon.

Mrs. T. F. Churchill died at Pendleton Saturday, August 16, 1913, from a complication of diseases. She was buried at Mayville Tuesday, Rev. R. M. Jones of this city having charge of the funeral services. A husband, six children, five brothers, two sisters and seven grandchildren are left to mourn her loss. Deceased was a native of Douglas county, Oregon and has been a faithful member of the Christian church for 23 years.

Mrs. Walkenshaw left this morning for Missouri.

Lady at Summit Hotel wants cooking or housekeeping work. Has boy nine years old. Call.

Mr. and Mrs. James Campbell went to Portland Tuesday.

R. C. Sheldon left this morning for Umatilla where he will handle a telegraph instrument for the railroad company.

Miss Dorothy Rogers went to Portland this morning.

Geo. Stewart and wife of Trail Fork left for Portland Tuesday.

Harry K. Thaw has broken out of the insane asylum in New York and is now in Canada. It is to be hoped that the quick justice for which Canada is famed will soon return this gentleman to the proper authorities in New York so he can be placed in safe keeping once more. Harry, it will be remembered, spent quite a sum of money to prove himself insane in order to escape a severe electric shock some years ago.

Miss Dolly Parks came home from The Dalles yesterday.

Mr. and Mrs. Dan McFarlane were passengers on Tuesday's train for Portland.

A card from A. Meresse of the Globe force who is visiting in Forest Grove says that he will not be able to return for a few days on account of a bunion about the size of a squash located just south of his big toe. The editor has gone on a lark and the Globe is left to the tender mercies of the "devil" this week so if this issue is not quite up to the standard we beg our millions of readers to consider the circumstances.

Important News In Advertisements

By HOLLAND.
THE valuable news of the day is not confined to the news columns. It is also seen in the advertisements. Of course it is important to know what President Wilson is doing, what the latest developments are in China or what baseball club leads the league. But it is also important to know where a bargain in boys' waists, garden hose, breakfast food or straw hats may be found.
These bits of commercial news are among the advertisements. Wise persons look for them and take advantage of them when they are doing their buying. The leading merchants are continually telling you news of their stores, news that is important because it often means a real saving and always means something new and worth while.
Read the advertisements if you seek important news. Read them regularly and always with the thought that back of each advertisement are the reputation and business standing of the merchant. He could not afford to deceive you even if he were so inclined.
ONLY TRUTHFUL ADVERTISING PAYS.

\$3,000 Fire at Lonerock

Blaze Monday Morning Destroys C. D. Robinson's Residence, Jack Andrews' Blacksmith Shop and Lonerock Supply Co.'s Warehouse.

Lonerock was the scene of considerable excitement Monday morning when a defective flue in Cal Robison's dwelling set the building on fire. When discovered the blaze was beyond control and for a time the whole town was threatened. The fire soon spread to Jack Andrews' blacksmith shop and the Lonerock Supply Co.'s warehouse and these buildings with their contents were totally destroyed. The big store building across the street was on fire several times but the bucket brigade saved it from destruction. The fire department was badly handicapped on account of the fact that there is no water system in the town. There was no insurance on any of the property destroyed. We are informed that that the city is seriously considering the installation of a gravity water system as there are a number of good springs on the hill east of town and the cost of the system would be trifling compared to the convenience and protection it would afford.

Advertisers Are In Good Company

By HOLLAND.
MR. BUSINESS MAN, have you ever thought that advertising puts you in good company? It is an old saying that a man is known by the company he keeps. When you join the ranks of the advertisers you join the ranks of the biggest and most successful merchants and manufacturers of the world.
How many concerns can you name in Chicago, in New York, in Kansas City, in Boston, in any large city in the country? Name them and you will notice that all are big advertisers and all are leaders in their lines. Ask your friends to name the most successful merchants they know in the big cities and in each case the name of a great advertiser will be mentioned.
The same rule is true of smaller cities and towns. The successful merchants are the advertisers. The advertiser stamps himself as one having confidence in himself and his wares, as one proud of his calling and seeking publicity and the test of patronage.
JOIN THE RANKS OF SUCCESSFUL ADVERTISERS.

FOSSIL NEWS

(From the Journal.)

Willis Knox and family have moved up from Grant's Pass and will assist in running the hotel recently purchased by Mr. Knox's parents.

Dr. L. L. Taylor, O. B. Robertson and A. B. Robertson were here Sunday on the outward lap of a business tour thru Wheeler County. Doc to sell autos and doctor sick horses, Oris to convert some bad bank debts into good ones, and Sandy to convince the sheepmen of Wheeler that Condon will be their wool market in 1914, unless the Condon-Fossil railroad should be completed before the wool sales.

The railroad surveyors moved into Fossil last week, their camp being located on the Tipley ranch just outside the city limits. It is learned on good though unofficial authority that they found a grade of slightly over three per cent at the steepest point on the survey between Condon and Fossil, and that the expense of building the road will be considerably less than was expected by the head officials of the company from incomplete data that was in their possession.

Frank Prindle was severely burned in his back and side in some mysterious way last Sunday, while out with his motorcycle. He has no recollection of how it happened, but must in some way have lost consciousness, and when he came to his shirt was ablaze. It is thought that the fire must have from a bunch of sulphur matches that Frank had in his pocket before the accident took place. Mrs. Prindle, who was in Portland on business, was at once called home by telephone, and has been busy nursing her husband ever since. The burns are deep in Frank's body, and for a while it was thought he could not recover, but he is now understood to have passed the danger point.
