The spelling match which was held last Friday at the Mayville school from 9:30 to 4:00 was an interesting event and largely attended. The honors of the match were won by Mayville. Following are the results by grades:

Second grade:

2nd--Arletta Willaby, Condon, 98

The instructors and students of the Condon school are very grateful and wish to extend their thanks to the people of Mayville for their kindness in opening their homes to the visitors and also to Al Searey, Mrs. Willaby, Elton Clarke and Joe Hawkins of Condon for the use of their cars.

Grange for Economy

The following resolution has been adopted by Buckhorn Grange No. 449.

RESOLVED: That whereas large sums of money are being expended by the candidates for office in printing, advertising and in many other ways, which would serve a more patriotic and much needed purpose if invested in Liberty Bonds, Thrift Stamps or donated to the Red Cross, and the same appears to be in direct violation of the provisions of the Corrupt Practices Act, which was designed to protect the purity of the ballot and honesty of election.

RESOLVED: That in the judgment of the members of the Buckhorn Grange, No. 449, P. of H., that no candidate for office violating the Corrupt Practices Act by the expenditure of large sums of money to advance his candidacy, is worthy of public trust or confidence, and it is the duty of the proper officers of the law to collect the evidence of such violation and see that the provisions of such act are strictly enforced.

Labor Outlook Bright

"The farm labor situation just at the present time is well in hand," says J. W. Brewer, farm help specialist. The establishment of a uniform wage of \$60 in the wheat-raising counties has done away with one farmer bidding against another for farm labor and has resulted in a considerable less movement of transient labor continually on the lookout for more pay.

Wilkins Is Now Sergeant

Will Wilkins is now a 1st Sergeant of the 133rd Aero Squadron stationed at Rockwell Field. A letter from him says: "I left Berkeley Ground School on April 1 for my present station. I am enjoying life and like the flying game. Flying Sergeant is a new rating for the aviation service and commissions in this branch will not be given to every flyer hereafter which is for the good of the service I think although I am hoping to get a commission either for flying or non-flying. At present I am a non-commissioned officer, 1st Sergeant of a flying squadron. This squadron was created since I arrived at the Island. I am in charge of a splendid class of 122 men and some were very well-to-do in civilian life. It is very warm down here and at times I am reminded of Gilliam county dust storms, especially when a wind comes from lower California or Mexico which is 14 miles from here. Gilliam county is not the dustiest place in the world, although we used to think so occasionally. We eat dust here some afternoons and the higher we get in the air the more we notice it. San Diego is a beautiful city and certainly nice this time of year. Today we all shelled our O Ds (olive drabs) and donned khaki uniforms which are much more comfortable in this climate. Ex-mayor Mitchell of New York is one of us learning the flying game. He is a major but common as an old shoe. A week ago Sunday I went out to Balboa Park and saw Charles and Bob Fitzmaurice. They were packing up and I think are some distance from here now. Both were in the best of spirits. I wish I could tell you more of our game here but to show that it is important will say that we cannot leave the Island without a pass and civilians cannot land here at all. You may rest assured that things are O. K. and the time will come when our branch will have a big part to play in this war."

ENVELOPE DAY, MAY 13
Everyone should use an envelope with a printed return address for a letter that is worth mailing is certainly worth insuring that it will come back if it does not reach its destination. In transit addresses sometimes become illegible or obliterated altogether and in such a case with no return on the envelope the letter is lost. Isn't it worth a cent each to insure the safety of your letters. Get your envelopes at the Globe office, the Service Shop, on Envelope Day and you can insure them for less than one cent each. Envelope Day will be on Monday, May 13, and you can bring your order or mail and phone it in. One hundred best quality white envelopes will be furnished that day with your return address printed thereon for only 85 cents. Send your order in now.

The big cities are not getting the credit for putting over the Liberty Loan this time. They are doing their part but it is the smaller cities and country districts that have set the pace in this campaign and it is conceded that the great publicity campaign carried on by the country papers is without question chiefly responsible for the showing made.
