NO WHEAT FLOUR 'TIL SATURDAY IS ORDER

There is no use going to the stores to buy wheat flour this week, that is not until Saturday, for they will not sell you any. For five days no wheat flour is to be sold by any dealers in the state except in specified cases such as hospitals, logging camps and bakeries. This drastic action was taken Saturday by the food administration to curtail the consumption of wheat following the adoption of the wheatless resolutions at the war conference.

SUCH MEN WIN WARS

London, May 28.—Lieut. Joseph Lindley Scales, Australian, is mentioned for conspicuous gallantry and devotion to duty in capturing single handed a strong point 150 yards in front of his line.

By effective use of his rifle he killed four of the enemy in the post and two more as they tried to escape. He then rushed the post from a distance of 50 yards and captured the machine gun. His men came to his assistance and aided in capture of five prisoners.

MICKIE SAYS

The kaiser had better stay away from Cantigny.

Labor strikes are not making any hit with the public nowadays.

Mr. and Mrs. F. E. Smith of Mayville were in Condon yesterday.

Miss Hazel Schott started to work in Graves and Graves store today.

Mrs. Fred Anderson is over from Mitchell to attend the races.

THE WISEST THING YOU CAN DO

Deposit your savings in this bank and watch them grow. Every day a little pile gets bigger and soon you will have a "heap."

When they reach respectable proportions, INVEST THEM. Deposit the income from the investment and then WATCH IT GROW.

Pursue this policy energetically and systematically and some day you will be rich.

Start today and start with us.

Warning to Fuel Users

We quote the following from U. S. Fuel Administrator Garfield's order of March 30, 1918:

"Every householder, every public utility and every industrial user of coal is earnestly advised and urged to place without delay their orders for coal to cover their needs for 12 months beginning April 1st"

We most earnestly advise the public to place their orders and signify their willingness to accept immediate delivery of their coal requirements for the coming fall and winter.

We believe there will be great difficulty in supplying good coal later in the season and that many consumers will either be short of coal or will of necessity be obliged to burn inferior and low grade coals which will prove extremely unsatisfactory.
