The Safe, Steady, Farm Light

Lalley-Light is electric light for the farm.

It is safe. It is clean. Its cost is low. Its brilliance is always steady, without a flicker.

The light direct from the generator, with the plant in operation, is as sure and steady as when the current comes from the storage battery.

This is so because Lalley-Light engine is designed especially for driving an electric generator.

Lalley-Light has been in successful farm use for six years. It brings new conveniences, better living, to every farm. Its light and power cost but a few cents a day.

Let us demonstrate LALLEY-LIGHT, Free

HOTEL FENTON

C. A. Fenton, Proprietor, Condon, Oregon

GET YOUR TICKET SOON

Last year the only two articles which had not advanced in price were the postage stamp and the Chautauqua season ticket. This year even the postage stamp has gone skyrocketing and the season ticket stands alone at the same old price, save for the government's ten cent war tax. The chautauqua season ticket at \$2.50 is the biggest buy in the country. It brings a full week of splendid entertainment, music and lectures for less than ten cents a number. There are 26 big events during Chautauqua week. Single admissions amount to over \$6.25 so you will save nearly a five dollar bill by the season ticket plan. Should you attend only four numbers you will still save money. Speak for your ticket now.

The Heppner Chapter No. 26 R. A. M. will be in Condon to hold lodge on Saturday, June 8. The lodge will open for work in the Odd Fellows' building Saturday morning at nine o'clock. All Chapter Masons are requested to be present.

A complete record of every recorded brand in use in Gilliam county is now on file in the County Clerk's office and contains an exact facsimile of every brand in the county. Owners of brands may see this record at any time.

The Red Cross has used a window in Bock's meat market this week to display the work turned out by the workers.

M. H. Stoneman is in the army and is stationed at Camp Fremont in California. He wants the Globe.

Judge D. R. Parker went to Fossil yesterday. He was accompanied by Dan McFarlane and Miss Mae Campbell.

J. H. Blake was over from Eightmile yesterday.

CARBURETORS AND TEETH

By Dr. Painless Parker

The carburetor that takes the raw gas and makes power for the throbbing engine is tuned and put in perfect condition before every race.

How about you in the race of life?

Your mouth is your carburetor.

Your teeth determine whether your food is real power or a dead load dragging back the entire human machine.

Today 80 per cent of the people of this Nation are trying to race with cracked carburetors — decayed teeth and 80 per cent at the age of 65 are dependent on others.

There is an obvious connection in these percentages that is well worth your thought.

Without good teeth to properly prepare the food for the stomach you are not going to make the grades of life on high.

Last year the teeth of more than 100,000 people were repaired by the Painless Parker System.

This System insures the best workmanship at a price you can afford to pay.
