County Agent Hawkins Helps Farmers

Good evidence that the work of the county agent is important to Gilliam county is the fact that last month Mr. Hawkins mixed 1040 quarts of squirrel poison. He is able to sell this to the farmers at 15 cents a quart when the usual price paid is about 40 cents. This alone is a saving of \$260. And many farmers are fighting the squirrels who never made much effect along those lines before.

Greiner, early settlers of this county, and the bridegroom is a fine industrious young man who is engaged in farming, renting the Harder ranch. The Apollo Concert Company will be here the first day, the Royal Hawaiian Quartet comes the second day and the third day brings the Metropolitan Artists directed by Mary Welch, the well known American soprano. The musical feature of the week will be the big band on the fourth day with Mary Adel Hayes, the coloratura soprano who was here last year. The fifth day will be a joyous one. The Eichhorns, veteran leaders of mass singing are coming to put over the community singing. Community singing is a force for unity. TRACTOR IS SOLVING BIG FARM PROBLEM

Washington, May 28.—The American farmer is carrying on, though his sons and his horses have gone to the war by regiments and by droves.

One hundred thousand tractors are chugging away in the fields, early and late, doing the work of at least 200,000 farm hands and 800,000 horses.

The former has pinned his faith to the tractor, and if he can win over the submarine with it this year, neither the I. W. W. nor the Malthusian law ever again can worry the food producer. The tractor is solving the American food production problem, the back-to-the-land problem, and many other things that used to give the good American gray hairs.

Last summer not more than 40,000 tractors were in use on American farms, and the gasoline plow horse was looked upon as an experiment. Now twelve factories are running night and day to supply the demand for tractors, and the railroad administration is rushing thousands of tractors to the fields. More than 200,000 of these gasoline laborers will be in use by the end of this year, officials of the department of agriculture estimate.

Frank Anderson, who has been working at Kennewick, Wash., for some time, returned to Condon Sunday evening.

ALL MUST SAVE WHEAT

Written by the Home Conservation Committee

Due to the fact that it requires seven shiploads of food stuff each day to feed our army in France and, bearing in mind that this cannot be furnished unless half our population abstain from using wheat flour until after harvest, it is the patriotic duty of every housewife to use substitutes until that time. During the last German offensive, France was obliged to put her men on half rations. This should appall us. We do not want our boys to be forced to such measures and the only way to prevent it for us to spread the truth and all of us join the forces of conservation. Tested recipes have been sent to every community and as the number of leaflets is limited it is strongly urged that every housewife cut out these recipes from the paper and use them. Bakeries, as a necessity, must use a percentage of white flour, for raised bread loses its consistency and delicacy without it, and bakeries must exist for the succor of congested districts where bread cannot be made at home. So housewives, who can do so, should make use of hot bread and nothing else for the next five months. The following recipes has been tested by the committee and is splendid.

Cornmeal and Barley Bread—1 cup cornmeal, 2 tablespoons sugar (or sirup), 1 cup barley flour, 5 teaspoons baking powder, 1 cup milk, 1 egg, 1 teaspoon salt, 2 tablespoons shortening. Sift dry ingredients into a bowl; add milk, beaten egg and melted shortening. Stir well. Put into greased pan, allow to stand in warm place 20 to 25 minutes, and bake in a moderate oven 40 to 45 minutes.

MUCH INTEREST SHOWN AT WORKERS' MEETING

The meeting of the farm laborers which was held in the courthouse Saturday night was one of the best meetings of the kind ever held in Gilliam county and representatives from all parts of the county were present. The workers showed a real interest in the matter and showed a willingness to get together with the farmers and co operate in the matter of wages as one means of winning the war. It was decided to send a committee to Pendleton to attend the farmers' meeting there next month and represent the laborers of this county. The committee was selected as follows: George Hardie, chairman; Lee Shelman and J. J. Hetzler.
