Brighter Light; Safer Light

ELECTRICITY makes better light than kerosene. Lalley-Light furnishes electricity for light and power. It is better light. It is safer. It can't explode. It cannot be upset and set fire to the house and barn. It is always ready—wherever you want it—at the twist of a switch. Lalley-Light is tried and true. Its engine runs smoothly and easily on extra large ball bearings. It has been in farm use more than six years. We will gladly demonstrate free on your farm. Call for the owners' testimonial book.

RELIEF FOR THE HARVEST

The "One Man Harvester" will save the cash outlay for header crew and the threshing expense which in round numbers amount to at least Two Dollars per acre even though the yield is only five sacks. This cash, together with that necessary to board the crews and pay for fixing up the header and wagons, would make a very substantial payment on a "One Man Harvester." Six horses and one man will cut and thresh from 12 to 20 acres a day. When in town look up the agent at the Arlington Lumber Co. 12d13

morning. I know the way they run these things. They're only trying to scare you, that's all. Come now, that's a good lad, eat something. It'll make the world look different to you."

The good-hearted sentry knew he was lying about the pardon. He knew nothing short of a miracle could save the poor lad.

Lloyd listened eagerly to his sentry's words, and believed them. A look of hope came into his eyes, and he ravenously ate the meal beside him.

In about an hour's time, the chaplain came to see him, but Lloyd would have none of him. He wanted no pardon; he was to be pardoned.

The artillery behind the lines suddenly opened up with everything they had. An intense bombardment of the enemy's lines had commenced. The roar of the guns was deafening. Lloyd's fears came back with a rush, and he cowered on the earthen floor with his hands over his face.
