

SHOULD ORGANIZE TO HANDLE GRAIN FIRES

Another means of practicing conservation is to be prepared for grain fires, according to a bulletin just issued by the State Fire Marshal, which suggests that the farmers form co-operative organizations for the purpose of fighting grain fires and organize community fire zones. The idea is to have a central station in such zone with equipment gathered there and ready for use at any time. Such station should be convenient to all parts of the zone so that no time be lost in getting the equipment to the fire. Another thing recommended by the Department is that farmers be very careful in hiring men who are strangers. Every bushel of grain is needed and preparation to handle fires may save many bushels to help win the war.

Many Going to Moro

Many Gilliam people are preparing to go to the Moro Experiment Station tomorrow, June 15, which is Gilliam County Day there. This Experiment Station is doing a wonderful work and everyone one who goes will be well paid for taking the day to see the results obtained in dry land farming there. It looks now as though Gilliam will send more than 50 auto loads. Everybody should take their dinner and plan to be at the Station by eleven o'clock.

Good Rain Falls in Gilliam

Practically a quarter of an inch of rain fell in Condon Wednesday and early Thursday morning and it was very acceptable to the thirsty grain. The government gauge registered .11 of an inch Wednesday and .18 yesterday morning. The rainfall was much heavier in other parts of the county.

NOTICE

Notice is hereby given that the undersigned will take up, advertise and sell in the manner provided by chapter 71 of the General Laws of Oregon for 1909, any and all livestock found running at large or being herded on any lands in our Salmon Fork range.

Black sow weighing about 80 pounds. Anyone knowing her whereabouts notify L. M. Rinehart, Condon. 13tf

PLENTY OF HELP TO HARVEST CROP SAYS COUNTY AGENT

The labor situation is not critical. There is plenty of help available. One reason for this is that many who are working in the shipyards want to get out on the farms for the big wages paid there are not in proportion to the high cost of living in the city. Many men who have families want work on the farm. If Gilliam makes a big crop, the present indications are that there will be no trouble in getting it harvested.

Buy or Pledge Before June 28

The War Stamps drive is doing well. Reports from the outside school districts state that they are meeting with great success in the sale of War Stamps and everyone is buying or pledging themselves to buy during 1918. The drive is to end June 28 and it is desired that Gilliam county should have her entire quota of \$82,000 pledged by that date. It is not necessary that each individual should buy his or her stamps before June 28th but everyone is expected to pledge the purchase before the first of the year. The Government asks this so that the amount of War Stamps to be sold in 1918 may be accurately known and this amount will have a direct bearing on the next Liberty Loan.

Will Teach Grain Grading

A grain grading school will be held at Pendleton June 24, 25, 26 and quite a number who wish to learn how to grade grain will attend from this county.

Mr. and Mrs. A. Chabot of Crookston, Minnesota, are in Condon this week on a trip in which business and pleasure are combined.

Miss Mabel McMorris is working in the First National Bank. H. F. Schilling will leave the bank for a time at least. He will attend to harvesting his grain crop and expects to be called in the draft in the early fall.

Mrs. Luella Waln is up from Portland visiting relatives and friends.

Mr. and Mrs. C. N. Laughrigh and children drove to Dayton, Washington, Monday in their car to visit Mr. and Mrs. A. Larsen for a week.

Wayne Hull is in the Ordnance Supply School at Hancock, Georgia, and writes to have his Globe sent to him there.

FARMERS HAVE GOOD MEET AT PENDLETON

By J. C. Hawkins
An agreement on the wages to be paid for harvest was reached Monday at Pendleton when the representatives of farmers and farm laborers met to discuss the wage scale. Gilliam county was the only county represented by a committee selected by the farm laborers but eight counties were represented by farmers' committees. Standard wages for the following kinds of labor were agreed upon: Hayers and common harvest laborers \$3 per day; stackers and loaders \$4 per day; header and harvester drivers \$5 per day; sack sewers \$5 per day; cooks \$3 per day. These wages include board. The standard wage does not mean the minimum wage or the maximum wage but an average wage for the average size machine or farm. One farmer from each county was chosen on a committee to fix the standard wage. George Hardie and J. J. Hertzler of Condon represented the farm laborers and J. A. Smith of Blalock, Robt. Chaney of Mikkalo and County Agent Hawkins were in attendance.

Look Good Says County Agent

The crops in Gilliam county look good when compared with the crops one sees in other wheat producing counties in eastern Oregon. The growing grain in other counties, as a whole, does not have the color and life shown by the grain here.

W. H. Mefford was up from Rock Creek Saturday.

TEACHERS' EXAMINATIONS

Notice is hereby given that the County Superintendent of Gilliam county, Oregon, will hold the regular examination of applicants for State Certificates at Condon as follows:
Commencing Wednesday, June 26, 1918, at 9:00 a. m., and continuing until Saturday, June 29, 1918, at 4:00 o'clock p. m.

Wednesday Forenoon
U. S. History, Writing (Penmanship)
Music, Drawing.

Friday Afternoon
School Law, Geology, Algebra, Civil Government.

Saturday Forenoon
Geometry, Botany.

Saturday Afternoon
General History, Bookkeeping.
Very truly yours,
J. C. STURGILL
Superintendent

ZIMMERMAN IS SENT TO PENDLETON HOME

Ed Zimmerman was brought to Condon the first of the week by Marshal Sweetin of Arlington and was examined here as to his sanity. He was pronounced mentally deranged by the local physicians and committed to the asylum at Pendleton. He seemed to be well balanced along some lines but on others his ideas were weird to say the least although he seems to be harmless. He had a small gold-plated star with the word "atuce" across it and when he was questioned regarding it said that it was a long time before he discovered what the word meant but finally found that it was the motto of the goose that laid the golden egg. He said he was born with a star in his heart but finally got it out and that Taft and Roosevelt got it and that Mrs. McAdoo now has it. He said she needed it because she is Goddess of Liberty.

Local Man Goes to Vale

D. W. Hammack, who has been at the head of the Condon high school for several years, has accepted the position of superintendent of city schools at Vale, Oregon, with a satisfactory increase in salary. He will attend summer school in Eugene this year and go to Vale later. Mr. Hammack is going to a good town and the people of Vale are getting a good man to head their schools.

Get Your Tickets Early

Chautauqua tickets are selling in good shape and the best plan is to buy early for, considering the number already spoken for, it appears that they will all be sold before the chautauqua opens. Following are some of the places you can buy them: J. A. Conley, Graves & Graves, Shanks & Horner, W. A. Darling, Horner, Moore & Co., John Jackson, A. B. Robertson, Cottmire's Pastime, Condon National Bank, Shelley's Garage, Frank Smith, Dunn Brothers, Lester Wade, Sheriff Lillie, First National Bank, Condon Globe, Arlington Lumber Co., S. B. Barker Co., Hotel Summit, Hollen & Sons, Farr's Cash Store, Red Cross Co., and A. M. Ogilvy in Mikkalo.

A. Chabot of Crookston, Minn., is here to look after the property which belonged to his brother, Albert. He has for sale two good business lots on Main street and a good residence with large lot. Anyone interested in this real estate will please call at the office of Chas. H. Horner. 13tf

J. F. Hurt was up from Olex Wednesday and while here ordered the Globe for another year.

D. W. Hammack renewed his subscription to the Globe this week.

CHAUTAUQUA OFFICERS ARE SELECTED AND ARE AT WORK

A meeting of the chautauqua guarantors was held in the county clerk's office last week and officers elected and committeemen appointed for the 1918 session in this city. C. N. Laughrigh was elected president; H. A. Hartshorn, secretary-treasurer and chairman of the advertising committee; H. F. Schilling, chairman of the ticket sales committee; M. R. Weidman, chairman of the grounds committee. L. L. Caldwell of the Ellison-White Chautauqua System was present and told some interesting facts about the chautauqua which is to open here two weeks from tomorrow.

Summer Courses Good

The summer courses offered at the University of Oregon are various and practical. Altogether there will be 33 instructors. Particular interest is manifested in the military courses and Red Cross instructions as well as in the French courses. War cooperation will play an important part in the summer school program and in handling its courses to build sentiment the University is doing a great work.

Gilliam Raises Quota

Gilliam county went over the top in the Red Cross and American Relief drives. In the Condon district 735 people out of 800 subscribed to the Red Cross and this is an excellent record.

Why Flour Must Be Saved

By J. C. Sturgill
The grain situation is very simple. It should be understood clearly and taken seriously. Here are the facts: On June 1 there was not more than 56,000,000 bushels of wheat left in the United States. The government, is going to ship 30,000,000 bushels of this to Europe in the next few weeks because our allies need it more than we do.

That leaves only 26,000,000 bushels for us. Not all of that will be available. Ordinarily we eat 40,000,000 bushels per month. It will be about two months before the winter wheat from the summer crop will be available for the American consumer.

It is plain enough therefore that for the next few weeks we must conserve wheat and wheat products. Our armies and those of our allies must be fed.

For the reasons as stated people in this country are asked to conserve and go on a wheatless basis until harvest. Two car loads of flour have been assembled at Condon and will be shipped to the government soon. This surplus flour is paid for at once by the government and the price paid is what it actually cost the consumer.

H. H. Wilburn completed a well this week for S. B. Barker on his ranch a mile and a half north of Condon. The well is 167 feet deep and furnishes 20 gallons per minute without lowering the water.

Miss Annie Hardie left Saturday for White Salmon, Washington, where she will visit Mr. and Mrs. Tom Stewart. She will be away about a month.

A. Chabot of Crookston, Minn., who is here settling up the estate of his brother, Albert, was in Olex Tuesday and while there sold a piece of land to Chas. O. Conner.

FRANK BURNS WRITES THAT HE LIKES HIS JOB

A letter from Frank Burns mailed in France May 5 says in part: "I am in the 'doughboys' or infantry and like it fine. Have been in England and a number of places in France. I am now assigned permanently with Co. E, 128 Inf. They are mostly Wisconsin and Michigan boys although there are also boys from other states. I am a Runner in this outfit. It's all the same as Courier or Orderly, in other words an agent of communication. We are used when other means of communication is destroyed. A fellow has to understand signaling and trench layouts. It's some job. They plow here with old-fashioned foot burners and these are mostly run by women. All the farmers here live in towns or settlements and go back and forth morning and evening. We had a smoker here the other night and, believe me, it was some show. The villagers treat us fine and I am sorry I can't lingo French. We get along pretty good though." Frank's address is Co. E, 128 Inf., American Expeditionary Forces, France, and he will appreciate hearing from Condon folks.

Nineteen Will Go Soon

Forty Gilliam county men have been notified by the Local Board to hold themselves in readiness to entrain for service during the week starting June 24 and nineteen of these will be finally selected.

Mrs. E. G. F. Eggers and daughter, Miss Margaret, of Pendleton visited J. C. Hawkins in this city this week.

FARMERS SET NO WAGES

At Pendleton on June 10 the farmers agreed to fix a scale of wages and have it noised around that it was to be the standard wage for the effect it would have but it was agreed that no farmer was in any way bound to stay by that scale of wages and he would have to hire and pay the best he could. One farmer stated that header box drivers were paid at \$5 per day with board last year and the farmer expected to pay \$5 or better this year. Another farmer stated that in his county separator men were being hired at \$15 up to \$25 per day.
