

Condon People Turn in 76,600 Pounds of Flour

By J. C. Sturgill

Another illustration of the patriotism of the people in the vicinity of Condon and their willingness to do anything to help win the war is furnished by the big shipment of returned flour which left Condon this week. This flour has been collected in and around Condon during the last few weeks until 76,600 pounds had been turned in. There are still some few people who have not reported their holdings of flour and, considering the way the government is working on this proposition, I would advise that all reports be made at once.

Therefore all owners of threshing machines of any description, whether stationary, combine or harvester, are requested to kindly report to me as soon as possible. In this report give size and type of machine.

Crop Reports Better; Will Be Harvested

Many encouraging reports are heard from the different sections of the county relative to the crop situation. Not a few have reported that their prospects for a crop are better than two years ago. Harvest will start soon in northern Gilliam. The labor situation does not appear at all alarming yet and it seems to be the general opinion that the large number of combines and harvesters to be in use this year will largely offset any labor shortage which might otherwise be felt here.

Sheriff Arrests Austrian; Has Flags of Enemy

Edward Katscherowsky, an Austrian, was arrested last week by Sheriff Lillie on the charge of being a slacker. He had no registration card and said he was over the draft age. Certain papers in his suit case and other circumstances made Sheriff Lillie suspicious of him. In his suit case were found an Austrian flag and a German flag, several pictures of the kaiser and a button showing the kaiser's picture and the German colors. Katscherowsky was naturalized in Canada. Sheriff Lillie took him to Portland and turned the case over to the Federal authorities.
