ELECTRIC LIGHT AND POWER FOR EVERY FARM

Running Water  
Is Another  
Lalley-Light  
Convenience

## Better Light at Lower Cost

Lalley-Light actually costs less than poorer light.  
It costs less because of the time it saves and the labor it saves.  
It costs less because it gives better light for after-night work.  
Because it makes the home more cheerful.  
Because its electric power runs the churn, and the separator, and the women can do other needful tasks.  
Because it enables you to have running water in house and barn.  
Consider Lalley-Light as an economy, and you will not be wrong—as owners' testimonials show.

Speed—  
Speed—Speed!

Uncle Sam pushed the clock ahead one hour to give more light.

Take advantage of it. You owe it to yourself and your country to make every minute count.

Use your car—passenger or commercial—to the limit.

Samuel P. Colt, president of the United States Rubber Company, helped awaken the country to the economic value of the automobile last fall. He said—

"Everything on wheels must be used and mobilized.

"The automobile is second to the railroads as an adjunct and supplementary to them in collecting and distributing merchandise.

"Owners should use their cars, both passenger and commercial, more and more."

Make the most of your car by using the tires that will extend its usefulness to the utmost.

Use good tires—United States Tires. They last longest and carry you farthest at least cost.

There is a United States Tire for every car or truck—to guarantee uninterrupted service and greatest economy.

Our nearest Sales and Service Depot dealer will tell you which ones will serve you best.
