## GILLIAM WOOD USED IN NATION'S SHIPS SEND IN NAMES FOR COUNTY HONOR LIST

### Locusts on Rock Creek Cut and Shipped to Shipyards

Is Used in Making Pins for Ships and Is Best Wood for That Purpose

In addition to furnishing an average crop of wheat to help feed the allies, the required number of men and amounts of money, Gilliam county also furnishes another necessity which does its small part in winning

the war and this is locust wood. A carload was shipped out of Rock Creek last Saturday and another carload will go next Wednesday. It is sent to the Western Ship Supply Co. at Portland and is used in making pins for the ships which are being constructed there. Each car carries eighteen to twenty cords of this wood cut into lengths four feet long and these two cars will make a large number of pins. The locust is cut about three miles above Rock Creek. It is said that locust wood is the best for the purpose and is becoming scarce.

### Patriotic Meeting Is Interesting and Instructive; Large Crowd

The Congregational church was filled Monday night by people of this city and vicinity to hear John Kollock, executive secretary of the State Council of Defense, and Major J. B. Hibbard, head of the Home Guard organizations of the state, speak on the various defensive organizations of the state. Mayor Fitzmaurice presided and a sextette of girls furnished patriotic music. First on the program was a duet by the Misses Marie and Helen Summers. Mr. Kollock was then introduced and told very interestingly of the many war activities being carried on in the state. He lauded President Wilson as the one man who could have mobilized the sentiment of the American people in the war crisis and warned his audience not to become overconfident in an early termination of the war because the Allies were rapidly pushing back the German armies. He said Germany's dream of an empire in middle Europe is true today and

warned against her anticipated offer to pay big indemnities and relinquish all gains on the western front for an early peace leaving her in actual possession of her war aims. His talk was followed by a duet by the Misses Cora and Rose Anderson and then Major Hibbard told how the new soldier is received at camp and how he is taught to take care of himself, being made a better man by his experience in the army. Mrs. Gross and Nell Goodwin closed this part of the program with a duet after which the ladies present were excused and Major Hibbard talked to the men and particularly to the registrants. The dance in the rink was well attended and enjoyed. The visitors were enthusiastic over the reception they received here and said their audience here was one of the best they have had in the state. Both praised the work of the Oregon Military Police and the Home Guards in all parts of the state and pointed out the necessity for such organizations.

The man who had been engaged to head the Condon Public School for the coming school year will not be here and nobody has been secured to take his place. It is reported that the board is trying to engage the services of Prof. Mulkey who formerly taught in Arlington.

Mrs. T. G. Johnson returned Sunday from a few weeks' vacation spent at the Schott home on Rock Creek.

Mrs. M. Fitzmaurice left Monday for Seaside.

Mrs. Elsie Campbell and children returned Monday from Arlington where they visited relatives and friends for a few days.

Mrs. W. S. Farr and daughter, Mrs. Ray Morgan, returned Tuesday from a visit to Portland and other points.

J. C. Sturgill was a Lone Rock visitor Wednesday.

### Wants to Be in Class 1; First Case in County

Herbert Walton is the first man in Gilliam county to ask for a transfer from a deferred classification to class one in the draft. Mr. Walton was in class four as he is a farmer and has a crop of wheat to harvest but he appeared before the Local Board Tuesday and asked to be transferred and passed a fine examination. This is the first case of the kind in the county. Mr. Walton has the spirit of true patriotism.

### Another Grain Fire in Wheeler County

A stack of barley on the Lee Butler ranch just over the line in Wheeler county in what is known as Greasewood was totally destroyed by fire Saturday night about 11:30 o'clock. The stack was 50 feet long by 16 wide and probably 12 high and was all the grain just cut from 40 acres on that ranch. Sheriffs Kelsay and Lillie and the Military Police arrived at the scene in a short time and after working together on the case arrested Herman Strese on the charge of having set the fire. Strese was taken to Fossil by Sheriff Kelsay and locked up. He was given a hearing Monday and bound over to appear before the next session of the grand jury under bonds of \$1000. The sheriffs of these counties and the police are working in full accord on these cases and it is probable the public will soon hear of more arrests in connection with these fires.

A. B. Robertson and D. N. Mackay made a business trip to Lone Wednesday.

D. R. Parker went to Portland Sunday.

Mr. and Mrs. Albert Boyd returned to Condon Wednesday. Mr. Boyd has been a member of the Military Police but will enter the war service August 15.

Mr. and Mrs. Frank Hollen and Mrs. H. N. Anderson returned Sunday from a week's visit in Portland.

Mrs. W. E. Smith and two daughters came up from Portland last week for a visit with friends and relatives.

### Business Man Says Ad Is Different but Good

A Condon business man stopped the Globe man on the street and said: "Say, that ad you wrote for me is a good deal different from any I ever had before but it brought results for it brought me business from eight or ten people that I know of. It's all right." This should be encouraging to local people as well as to the Globe man for it is another good illustration of the fact that Globe ads get results.

### John Bishop Contracts to Carry Mail

J. H. Bishop has received the contract from the government to carry the mail on the Ajax route at the compensation of \$1800 a year. Thus the John Day Highway still has plenty of post road to get government appropriations and the Ajax people will get good service from Mr. Bishop. In addition to this work Mr. Bishop will operate the Trimble ranch directly southwest of town but will discontinue his dray business.

State Fair, Salem, Oregon, September 23-28. Splendid exhibits, excellent music, high class entertainments and a superb racing card. For particulars write A. H. Lea, Secretary, Salem, Oregon.

Wilbur E. Bennett left Tuesday morning for Camp Lewis to fill one of the vacancies recently caused by the rejection of a number in this county's regular draft quota.

Ross Kennedy, Albert Boyd and Roy Harris will leave August 15 to enter the Benson Polytechnic Institute in Portland for instruction in mechanics to fit them for war service.

H. Karstadt, who was thrown from a hack two weeks ago and suffered serious injury to one of his hips is still confined to his bed and suffers considerable pain.

Campbell Brown returned on Tuesday from Portland. Mrs. Brown is at the coast.

Ed Dunn came up from Portland Monday.

### When Finished List Is To Be Displayed in Courthouse

Idea Is to Get Accurate Record of All Gilliam Men Now in the Service

Every day the Globe is receiving a number of Honor List Coupons like that printed below with the name of some relative or friend who has gone from Gilliam county into the service of the United States. If you know of one not yet given in the Honor List below, fill out this coupon and send or bring to the Globe. The idea is to get an accurate list of all the men who have gone from Gilliam county. As it is now nobody knows how many have gone nor who they are and there should be some record. When the list is complete it will be hung in the courthouse and kept up to date as others go and in this way an accurate record may be kept if you will co-operate in making it.

### Is Your Watch Sick?

Didn't know watches got sick? Well, they do. The balance wheel of a healthy watch makes 18,000 vibrations every hour. But it must be healthy to do this.

Dirt in your watch makes it sick. It loses energy and so loses time.

### I AM THE WATCH DOCTOR

If your watch is not fully up to its work, bring it to me. It may only need the fraction of a drop of oil, but it must have that or become disabled. A little speck of dirt in a pinch will make it very sick.

BRING IT TO ME. I CAN CURE IT.
