Sweeping Them Back

Carl Sandburg says: "The kaiser will be thrown out on God's great dustpan." Yes, and the allied army is God's great broom.

Prince Lichnowsky has been expelled because he has told the truth—the most heinous crime in the judgment of the Hun.

Yes, Indeed!

The kaiser didn't raise his eldest boy to be a soldier and that's perfectly plain just at present.

The Germans have apparently given up their desire for Paris cookery.

General Foch's policy of patience and waiting has been amply vindicated.

Overeating kills people physically, procrastination kills them financially and dissipation kills them morally.

Dig Deep and Hard!

The Salvation Army drive will soon be here. Keep your pocket-book handy for this organization is doing a wonderful work at the front.

If you wish something pleasant to think about, remember there will be a fourth Liberty Loan drive this fall.

Live Ones!

The government in addition to taking over the telephone and telegraph systems is taking control of all physicians. Must consider the doctors as live wires.

H stands for Heroic, Hold'em Haig; F for Foxy, Fighting Foch; P for Pent-up Power Pershing; W for War Wary William.

Quentin Roosevelt's life should not be considered as incomplete. However brief the life may be, no man's life which is given for his country fails short of full completion.

Do not fail to put in your coal. Black diamonds will probably be as scarce and hard to get next winter as the blue-white ones.

Only One Way to Stop It

The talk by John K. Kollock at the church Monday night was good but the meat of his remarks was served when he spoke of the peace offer which will be coming from Germany soon and said that time would be the real test of our endurance to stand fast. The test will be met squarely. Nobody wants peace until the mad Hohenzollerns, the world's military parasites, are wiped from the face of the earth, Germany absolutely satisfied with her original borders and humbled in a way she will not forget in a thousand years. When this is accomplished, along with a number of other little things, then will we have peace, not before.

Co-operation Does It

Gilliam county has been more fortunate this year in the matter of fires than her sister counties. This is due to a large extent to the vigilance of our county and city officers and the military police, all working together to that end. This vigilance, however, would be practically of no value were it not for the fine co-operation these officers are receiving from the farmers in all sections of the county. With this co-operation it may be that Gilliam will market her crop without a disastrous fire and save the wheat for the war cause. Without such co-operation there would be danger.

"OUTWITTING THE HUN"

By
LIEUTENANT
PAT O'BRIEN

As soon as the window was closed, the noise of the train naturally subsided and its speed seemed to diminish, and my plan appealed to me stronger than ever.

I knew the guard in front of me didn't understand a word of English, and so, in a quiet tone of voice, I confided to the English officer who sat next me what I had planned to do.

"For God's sake, Pat, chuck it!" he urged. "Don't be a lunatic! This railroad is double-tracked and rock-balasted and the other track is on your side. You stand every chance in the world of knocking your brains out against the rails, or hitting a bridge or a whistling post, and if you escape those you will probably be hit by another train on the other track. You haven't one chance in a thousand to make it!"

There was a good deal of logic in what he said, but I figured that once I was in that reprisal camp I might never have even one chance in a thousand to escape, and the idea of remaining a prisoner of war indefinitely went against my grain. I resolved to take my chance now at the risk of breaking my neck.

The car was full of smoke. I looked
