GILLIAM COUNTY'S LEADING HOME PAPER

The Fourth Liberty Loan drive starts September 28th. Will you be ready?

VOL. 29

CONDON, OREGON, FRIDAY, AUG. 16, 1918

NO. 22

GILLIAM COUNTY THRESHERS ARE DOING FINE WORK SAY INSPECTORS

B. Bennifield, government inspector of threshing machines, and C. Porter, representing the government grain corporation, are touring this section of the state. Last week and this they inspected a number of machines in Gilliam county and so far have found them generally to be operating satisfactorily although they found some combines that were wasting a little grain. Mr. Bennifield has traveled over many sections of the United States in the interest of the government yet he says that in all his travels he has never found anyone doing any better threshing than is now being done by the Clyde Willaby thresher and by the Jim Engberg machine. After a careful inspection he

stated that these machines were saving all the grain. This work is very important and these inspectors thoroughly understand their duties. They are pleasant men to meet but it can be seen at once they are looking after the interests of Uncle Sam. They found in Sherman and Wasco counties where the principal machine used is the combine that considerable grain has been wasted and they stopped several machines in those counties. One combine in this county was also stopped. Wheat is too precious, aside from its money value, to be wasted after it has been grown. O. B. Robertson and J. C. Sturgill accompanied these men on their tour of inspection in this county.

GILLIAM IS BANNER COUNTY; BUY W. S. S.

Gilliam county has been reported to Washington as the banner county in the state in the War Savings Stamp campaign. We must not allow the county to fall down now so don't forget to redeem your August pledges for War Saving Stamps. When you pledged you expected to buy and you are expected to do so. Remember, the boys in France are doing their best and we should not fail to support them. You can buy the amount of your August pledge at any post office and no notice further than this is given.

Miss Annie Hardie is working in the store at Lone Rock.

Mrs. W. G. NeVill returned Sunday from Cripple Creek, Colorado.

FIND SOME MACHINES ARE WASTING GRAIN

The government inspectors of threshing machines who are visiting the counties in this vicinity report that in Sherman county they found one thresher that was wasting 12 pounds out of every two and one-half bushels or practically one bushel out of every twelve threshed. This machine was stopped at once and when one considers that seven pounds of wheat will save a Belgian child it is plain to see why any machine which wastes grain should not be allowed to operate. That machine in Sherman could have saved many Belgian children every day it was running.

Al Downer is in Marshfield visiting at the home of Mr. and Mrs. Frank Downer, former Condonites.

RED CROSS MAKING CHILDREN'S DRESSES

The Red Cross work room is again open on Tuesday and Friday. At the present time the ladies are working on dresses for the French and Belgian children. All who can sew are requested to be present on the work days and do their bit. The children over there are in dire need of these clothes and the Red Cross has a limited time in which to furnish them.

Mrs. Glen Forwood, formerly Miss Pearl Schott, is visiting at the old home on Rock Creek.

ALICE SHADLEY BADLY BURNED

Alice Shadley was severely burned when her dress caught fire while cooking a breakfast order at the Fenton Hotel Wednesday morning. Her apron caught fire first and she ran out into the back yard, the flames spreading quickly to other parts of her clothing. Evan Anderson was in the dining room and hurried to her aid. His hands were badly burned in beating out the flames but his prompt action probably saved Miss Shadley's life. Miss Shadley's shoulders and neck were burned quite deeply and she inhaled a little of the fire and smoke. Dr. Cathey was called and took her to the hospital where she is resting as easily as can be expected.

W. E. McClure has a new Holt 75 caterpillar to do the work on his farm in Ferry Canyon. He drove the new tractor out Monday.

Mr. and Mrs. C. W. Harris and children and the former's mother drove to Mitchell Sunday. Mrs. Harris remained there this week as the guest of Mrs. Fred Anderson.

Mrs. Ted Palmer returned from Monmouth Tuesday. She attended the summer session at the normal school there.

John S. Moyer, son of Mr. and Mrs. Abe Moyer formerly of Condon, is now with the 65th Artillery in France. He has been over there since April.

Mrs. E. W. Hutchinson returned Saturday from a two weeks' visit in Portland.

DELIGHTFUL PARTY AT BLAKELY HOME

Mrs. G. M. Blakely entertained a number of young people Saturday evening at a delightfully informal dancing party. Japanese lanterns furnished light and decoration for the porches where the dancing was enjoyed. The affair was planned in honor of the hostess' daughter, Miss Katherine Blakely, who will leave the latter part of this month for Portland where she will attend school.

Fred Wade was up from Olex Tuesday.

DEER SEASON TO OPEN SEPT. 1ST

There has been considerable discussion around town about the game laws and the open season for game and a number have written in to find out about it. The hunting season for deer will not open in eastern Oregon until September 1 and will close October 1, except in the counties of Malheur, Harney and Klamath where the hunting season opened yesterday, August 15, and will close October 15. The open season for blue or sooty grouse opened yesterday and will close October 31. It is unlawful to kill prairie chicken anywhere in eastern Oregon except in Union, Wasco and Sherman counties.

Mr. and Mrs. E. H. Randall were up from Clem Sunday.

Mr. O'Reilly, government representative of boys and girls' club work, was in Condon Saturday in consultation with J. C. Sturgill regarding this work for the coming year.

The Board of the Condon Public School has engaged the services of P. J. Mulkey as principal of the school for the coming year. Mr. Mulkey has taught here before, also in Arlington, and is known to be an efficient teacher.

The news was received here last week that E. J. Bishop had died in Lowell, Arkansas. He was the father of J. H. Bishop and Mrs. L. L. Mattingly of this city and Mrs. J. T. Glover of Dayville. He had visited in Condon during the summer months of the last three years and has many friends here.

HONOR LIST NOW NUMBERS 218 NAMES; PUBLISHED NEXT WEEK

The honor list coupons have been coming in so fast this week that the Globe man has not had the opportunity to segregate the names and arrange them so the Honor List is omitted in this issue but will appear next week. At the last count 218 names had been received although these are nearly all who have gone there

are still a few whose names have not been sent in, according to the estimate of the number in service. Those names which seem hardest to get are the ones who enlisted early after the start of the war. If you know of any of these, send the names in so that they may be entered next week.

HONOR LIST COUPON

Editor Condon Globe, Condon, Oregon.

Following are the names of those who I know have gone from Gilliam county to serve their country.

Signed _____

GOVERNMENT FINDS MUCH GRAIN WASTED

It has been estimated by the government that approximately 40,000,000 bushels of wheat are lost every year in the United States through wastage by the threshing crews. This is the reason that government inspectors are visiting the threshing machines in Gilliam county and all other grain growing counties in the state. Such waste must be stopped and the thresher men are enthusiastically co-operating with the government to save this great amount of grain.

Miss Frances Lane, daughter of Mr. and Mrs. Tom Lane formerly of Mayville, was in Condon, the first of the week visiting her uncle, Geo. B. Duke. Her home now is at Fresno, California.

H. S. Neel was a business visitor in Pendleton last week.

James Hardie, who has been in the harvest field five weeks, returned this week to his job in the Globe office.

Mrs. Jesse Glover left Tuesday morning for her home at Folsom, California, after visiting relatives and friends in and around Condon.

GILLIAM WILL DONATE TO SALVATION ARMY

Gilliam county is soon to be given its first opportunity of contributing to the great humanitarian Salvation Army War Service which is being carried on in and about the big camps and cantonments of this country and in the front line trenches of war-ridden Europe. The United States is being asked for a maintenance fund of \$5,000,000; Oregon's apportionment is \$50,000, half of which was raised in the city of Portland last winter. A campaign is now being organized, which will open the third week in September throughout the state, to secure the remaining \$25,000.

Since this is a war measure approved by the United States government, leaders in the Army and the Council of National Defense, the detail of the work has been placed in the hands of 36 county chairmen; of the Council of Defense, D. R. Parker in this county. The quota for each county is already in the hands of each chairman. Of all funds collected, 75 per cent goes to Salvation Army war work in Europe and 25 per cent is used in work in the camps and cantonments of this country.

A. B. Robertson, local agent for the Lalley Light electric lighting plant, sold three complete plants this week to Wheeler county people. Those who bought are Harry Reed of Fossil, P. R. Barnhouse of Antone and W. E. Reed of Mitchell.

F. B. Moore of Fossil was a Condon visitor Tuesday.

Stylish, Modern Tailoring

Come in and look over my Woolens for Winter suits. I have a large assortment of all wool in standard weights and the quality has never been better in the display line I have picked for my trade. This is the time to supply yourself with good WOOL SUITS AND OVERCOATS as the prices

are advancing every season. Soon we will not be able to buy woolens for suits as the government is taking over the wool for suits and overcoats for the soldiers.

RAINCOATS

I also have a good assortment of Rain Proof materials for Raincoats.

For the Ladies

Ladies' Suits, Coats and One-piece Dresses made to order from your own material or mine. Come in and see my samples.

Bring your old suit in and have it cleaned and pressed. First class service in cleaning altering and repairing
