Stick With Your Job

Many men make the mistake of thinking that some other line or place offers better opportunity than the work and position in which they are at present. Some times this is true, but more often it is not true. In fact, most people are less than fifty per cent efficient in their present jobs. Their present jobs, therefore, offer splendid opportunities for making the first important advances in personal efficiency.

"Until It Helps"

"Buy until it hurts" and "Give until it hurts" are two expressions we hear often and one refers to the purchase of Liberty bonds and the other to contributions to the Y. M. C. A. or Red Cross or kindred work. Both are fundamentally false in meaning. They should be sent to the scrap heap and supplanted by "Buy until it helps" and "Give until it helps." This does not

mean until it helps the country or the war organizations but it means buy and give until it helps you and gives you a clearer understanding of your responsibility. "Buy until it helps" you by broadening your vision of the war and to the struggle to save civilization. Buy because your soul needs the quickening influence of a wider conception of liberty and humanity and civilization and the more freely you buy the greater will be the ennobling of your own soul. You will be helping yourself and at the same time helping the nation.

That Letter "e"

The letter "e" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger and in hell all the time. For some reason the fortunates of this letter have been overlooked, so we call attention to the fact that "e" never is in war and always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no meat, no life, and no heaven. It is the center of honesty, makes love perfect, and without it there could be no editors, devils or news.

Uncle Sam has built several thousand miles of railroads and miles of docks and wharves in France for the uses of his army. In one city he has established a bakery that turns out a million loaves of bread a day; in another the largest refrigerating plant in the world.

The proposal to send the conscientious objectors to the farms as laborers has not yet received the hearty endorsement of the farmers. Probably because the farmer has no more time these days to argue with his help than colonels with their regiments.

Condon has an ordinance providing that all autos must use mufflers within the city limits. The enforcement of this ordinance would be appreciated by nearly all the people who live here.

Shakespeare, who classified the seven ages of man, would have enjoyed himself yesterday. He'd have found most of them at the registration office.

There are a number of things which provide us with a convenient alibi for the evil that is really inherent in ourselves.

The best the Huns can say about their recent military maneuvers is that they have placed a retreat expert in charge.

Life is real and life is earnest, Life is full of enterprise. Still it has a few back numbers Who refuse to advertise.

The way of the transgressor may be hard but with some folks it comes mighty easy.
